

It depends upon the fuller figures, and the indications are that it will be close finish between Oglesby and Small, the winner getting by with a margin of perhaps between 15,000 and

35,000, which is close work in an Illinois G. O. P. race.

Partial Vote for Senator.

On senator, 790 Chicago precincts gave:

	Men	Women	Total
Chapfield	3,883	1,319	4,402
McKinley	22,461	10,601	33,062
Smith	46,333	16,743	63,076

This indicated a Smith plurality of 14,000 in Chicago.

Downstate, 985 precincts gave:

	Men	Women	Total
Chapfield	12,333	4,602	16,935
McKinley	59,628	22,461	82,089
Smith	38,697	13,119	51,816

This indicated a downstate McKinley margin of 31,000.

On candidates for other state offices only a few fugitive reports are in, both in Chicago and downstate. They indicate that most of them will go up or down with Oglesby.

The voting throughout the state was apparently lighter than expected. In Chicago apparently about 775,000 Republican ballots were cast, where 800,000 were looked for.

In some west side wards the Thompson-Lundin organization clamped things down so tight that in some precincts not a vote was registered for Oglesby and McKinley. The first returns received at Mayor Thompson's office were from the Sixth precinct of the Twentieth ward, City Sen. Morris Miller's precinct. It gave Smith and Small 235 votes and McKinley and Oglesby none.

HOW IT WAS DONE

BY E. O. PHILLIPS.

The Aurora-Joliet district was bad medicine for the Oglesby-McKinley candidates. Friends of Edward D. Shurtliff in McHenry and Lake counties, apparently could not be lined up for the anti-Tammy candidates after Mr. Shurtliff was eliminated from the senatorial contest. It seems that Lake and McHenry counties have been carried for Small and Smith.

The candidacy of Senator Barr of Joliet for attorney general helped the city hall slate in Will county and the Copley organization in Kane county was not a unit. On the face of the early figures, the Eleventh district is for the city hall ticket.

In the Rockford-La Salle district, Winnebago county went for Oglesby by a 2 to 1 vote, this being the home of Fred E. Sterling, candidate for lieutenant governor on the anti-Tammy ticket. La Salle county went the other way quite as enthusiastically, as had been expected, and gave Small and Smith about the same pluralities as were given the other way in Winnebago. Boone county was 2 to 1 for Oglesby and McKinley, and gave Small and Smith about the same pluralities as were given the other way in Winnebago. Boone county was 2 to 1 for Oglesby and McKinley, and gave Small and Smith about the same pluralities as were given the other way in Winnebago.

Lowden District for Oglesby.

Every county in the Thirtieth district—Gov. Lowden's home territory—was carried by Oglesby and McKinley, according to the early figures. Lee and Whiteside went heavily for the Oglesby ticket.

The military tract district showed symptoms of being with the tiger only in Rock Island county. Capt. Oscar Carlstrom, a candidate for governor, hurt Oglesby in Mercer and Henderson counties, carrying the latter by a heavy margin. Carlstrom's first figures from Rock Island showed a heavy Small vote, but Oglesby was leading. Oglesby carried Warren, McHenry, and Hancock without trouble, and McKinley apparently gets a lead in each county in the district.

Small's only showing in the Galesburg-Quincy district was in Fulton county, where Col. B. M. Chipfield lives. Col. Chipfield carried his county handsly for senator and Small seems to have won it also. Oglesby carries Adams county by a wide margin and Knox went for him better than three to one. Henry county turned in a heavy Oglesby lead.

Small Third in Peoria.

In the Peoria district Oglesby may have carried Peoria county over Mayor Woodruff of Peoria, one of his opponents. Small ran third. Oglesby now seems to have had a plurality in each of the counties in the district, Bureau, Marshall, Putnam, Stark, and Tazewell. Smith for senator ran ahead of Small in Bureau and Woodruff, but Smith was disappointed in losing Peoria county to McKinley by more than 1,000.

Livingston county, Col. Frank L. Smith's own bailiwick, appears to be the only county in the Seventeenth district that went markedly for Small for governor. Smith has won the district for senator without trouble, but Small is far behind the senatorial candidate. McLean county is almost a standoff, according to early figures from Bloomington. Logan, which is Lieut. Gov. Oglesby's home, gave him a handsome majority. Ford and Woodruff went for Smith, but not for Small.

Small Wins Kankakee by 2,500.

Len Small has nailed down Kankakee county, his home, by better than 2,500 and probably has carried Iroquois without much trouble. Vermilion county, however, went big against Small. Oglesby's plurality there now being estimated at 2,000. Edgar was a fifty-fifty bet on early returns, while Clark and Cumberland were both in the Oglesby column. Small probably has carried the district by less than 500 and McKinley has won it by at least 1,200.

Every county in Congressman McKinley's district was carried by McKinley and Oglesby and their associates on the state ticket. McKinley managers claim a plurality of 7,000 for him in the district and say that Oglesby's lead is 16 better than 5,000. Champaign county was close between Small and Oglesby.

The Twentieth district—the Jack-

THE BEST PRAISE

Mrs. Crowe was the first to congratulate her husband, Judge Robert E. Crowe, when it became apparent that he had victoriously led the primary ticket and become the Republican candidate for state's attorney.

nonville territory—was Oglesby's and McKinley's, and the district is figured as having given the anti-Tammy slate an average plurality of 4,000.

Sangamon county furnished Oglesby a plurality of 5,000, with McKinley's lead standing at substantially the same figure. Small seems to have carried Montgomery county by a close shave, Jacobson and Christian went to Oglesby and McKinley.

East St. Louis was not the easy meat for Small that had been prognosticated by the Rodenberg machine leaders. Seventeen out of fifty-eight precincts in the city gave Small 554 and Oglesby 467. On the basis of these figures, Oglesby was given a chance to carry St. Clair county. Oglesby won Madison county, and has carried Bond and Washington. Randolph was Oglesby's by a strong margin, while Monroe, one of the few downstate counties that were for Thompson for senator

two years ago, went to Small. Smith probably has carried the district. No county in the Twenty-third district—which is the home district of Secretary of State Emerson—appears on the midnight figures to have given a plurality to Small and the district is claimed for Oglesby by better than 5,000, with McKinley said to be leading by about the same figure.

The Twenty-fourth district was a distinct disappointment to the city hall management. The Oglesby ticket has carried all of the district's counties. Pope possible exception. Saline and Williamson, that were confidently counted upon by the Small-Smith leaders, are now in the Oglesby-McKinley column.

The Cairo district went heavily against Small and Smith and Small failed to carry Alexander county, that was conceded to him ten days ago. Jackson shot in an 1,800 Oglesby lead, and Perry county, the home of Harry B. Ward, went to Oglesby.

PLATFORM OF THE THOMPSON TICKET

The gist of the platform upon which the Thompson-Lundin candidates went before the voters yesterday, as summarized in city hall campaign literature, follows:

"Opposition to the United States joining the league of nations, or any league of nations, with or without reservations.

"Opposition to compulsory military service, the instrument of tyranny and despotism.

"Opposition to conscription of the American boy for foreign military service, unless the question shall have been submitted to and approved by a vote of the people.

"Demand that our American soldiers now in Europe and Asia be brought home forthwith.

"Demand that the United States should get out of Europe and stay out.

"Demand for exemption of American citizens from federal taxation on all incomes less than \$5,000 per annum.

"Demand for a liberal bonus to our soldiers, sailors, and marines who served in the late war.

"Demand for the imprisonment of profiteers.

"Demand for the constitutional right of the people to free speech, free press, and peaceable assembly.

"Immediate repeal of the present state public utilities act and the restoration to all Illinois cities of the right of home rule in the regulation and control of their local public utilities.

"The plan of cooperative selling and buying to insure the producer a fair price for his labor and commodities and to save to the consumer the extortionate profits of the corrupt combines, speculators, and profiteers.

"Completion and development of Illinois' hard road system."

HOYNE LOSES TO IGOE BY 15,000 IN DEMOCRAT RACE

Bob Burke, Anti-League, Leads in Chicago.

(Continued from first page.)

board: Michael Rosenberg, member of the constitutional convention, and Thomas M. Sullivan, former member of the drainage board. To these O'Toole was a poor fourth, in a number of districts not getting half as many votes as any of his opponents.

Edward Cohen and James Welch won the two nominations for members of the board of assessors over three outside weak contenders.

Four organization candidates did not have even a nominal opponent. These were Frank X. Busch for county judge, M. K. Sheridan for member of the board of review, T. J. Crowe for recorder, and Matthias Aller for coroner.

Walter J. La Buy, lawyer, won the party's candidacy for clerk of the Circuit court, four to one. By just as large a percentage Charles Michael, attorney and member of the constitutional convention, was nominated for clerk of the Superior court.

First Ten for Judge Win.

For Municipal court judge this democratic field consisted of fifteen entries, but there was no organized effort to beat the first ten, which composed the organization slate. The names of those who are the winners, barring a slip in the complete returns, are: Dennis W. Sullivan, Leo J. Doyle, Frank H. Graham, Edmund K. Jarecki, James Donahoe, Edmund L. Mulcahy, James S. McInerney, Francis Borrelli, Joseph A. Graber and William J. Lindsay. The first five in this list are on the Municipal bench at present.

For the vacant seat in the court, caused by the death of the late Harry Dolan, there were six candidates. A. A. Pantella, the organization candidate, was an easy winner.

No one in the great Democratic party was willing to offer himself as a sacrifice in a candidacy for county surveyor.

Lewis' Lead 24,000.

In the first 518 precincts out of 2,210 within Chicago City, James Hamilton Lewis had a lead of more than 24,000 votes. The former senator received 29,432 in these precincts, as against 5,283 for Barratt O'Hara.

For lieutenant governor the organization candidate, Walter W. Williams, did not do so well. His vote in 800 precincts was 21,607, as against 11,124 for J. J. Hamilton.

Arthur W. Charles, the slate candidate for secretary of state, received 24,395 votes in 800 Chicago precincts, as against 7,274 for Alfred E. Frederick.

In the same precincts James J. Brady, the Brennan standard bearer for state auditor, received 26,285, as compared with 5,833 for the independent candidate, Edward T. McCaffrey.

Ryan Gets 22,745.

For state treasurer William Ryan Jr. in the same territory received 22,745 votes. His opponent, Charles Roth, garnered only 9,614 votes.

The two organization candidates for congressman at large, Balis and Schneider, received, respectively, 19,123 and 19,445 votes. The other contestant came forward with 17,513 votes in the same 800 precincts.

On the county ticket Labay, the organization man for clerk of the Circuit court, received 20,395 votes in the first 475 precincts to report. The other two candidates combined received only 7,040.

Charles Michael, slate candidate for clerk of the Superior court, obtained 16,295 votes in the same precincts. Thomas J. Carroll was credited with 7,817 in the same districts and Thomas P. Bonfield with 2,719.

For state's attorney 862 precincts are available. They give Hoyne 17,723 votes and Igoe 22,231. The other three candidates in the precincts received a combined total of 1,596 votes.

Vote on Sanitary Trustee.

The City Press has compiled returns from 675 precincts with reference to the trustees of the sanitary district.

The three slate candidates, P. J.

Carr, Michael Rosenberg, and Thomas M. Sullivan, received the following votes respectively: 23,826, 15,335, and 26,102. Of the other four candidates, Ald. O'Toole received 8,513, which was 3,900 votes above the next entry.

The first ten names in the following list of candidates for place on the Municipal bench ticket were endorsed by the organization. The vote assigned to each is for the first 800 precincts to report. The vote for each candidate follows:

Sullivan, 23,972; Doyle, 23,214; Graham, 21,671; Jarecki, 21,463; Donahoe, 21,950; Mulcahy, 19,844; McInerney, 20,270; Borrelli, 22,455; Graber, 17,161; Lindsay, 16,314; Teinowitz, 4,803; Burke, 9,182; McNamara, 6,990; Dewd, 6,733; Long, 8,238.

For the vacancy on the municipal bench A. A. Pantella, the organization man, received 11,578 votes in the first 650 precincts to report. The next highest man, Martin Walsh, received 5,234. Robert E. Burke for United States senator was given 17,958 votes in the first 650 precincts to report, while Peter Walker received 17,212 votes.

Kidnaps Boy as Love

Hostage; Hit by Train

Gus Thakus of Gary, Ind., has his own ideas on avenging unrequited love. As a result he lies in a serious condition in a hospital at Lima, O., the victim of a collision between his motorcycle and a train, while 10-year old Alexander Volosko, whom he kidnapped, has been returned to his parents' home in Gary.

When Thakus' attentions were repulsed by Alexander's half sister, Mary Perski, 19 years old, he kidnapped the boy and was racing toward Pittsburgh.

5 CONGRESSMEN SEEN AS LOSERS; FOUR FROM G. O. P.

Juul, Wilson, Chindblom,
and Copley on List.

BULLETIN.

At 3:30 o'clock this morning Congressman Copley's headquarters at Aurora claimed that he had been re-elected by between 500 and 600 majority over McCarthy. Late returns from strong Copley territory had made a rapid switch in the earlier situation, it was asserted.

Four of the sitting Republican members of congress and one of the Democrats apparently have been retired by the result of yesterday's primaries and two more Republicans will not know whether they are to be re-elected until the four Republican members who seem to have been wiped out are counted.

WILLIAM W. WILSON of the Englewood district.
NIELS JUUL of the northwest side district.
CARL R. CHINDBLOM of the Lakeview district.
IRA C. COPLEY of the Aurora-Joliet district.

The losing Democrat is Congressman Thomas Gallagher of the west side district.

"Uncle Joe's" Fate Doubtful.
Waiting at the church are Uncle Joe Cannon of the Danville district and William A. Rodenberg of the East St. Louis district. Rather substantial figures from the Danville territory indicate that Uncle Joe is comparatively safe, although the figures from his own county, Vermilion, were not at all satisfactory to his managers. Mr. Rodenberg is in the fight of his life in East St. Louis and may have scraped through with enough in St. Clair county to give him the required plurality over John J. Brenholtz Jr. of Alton.

The landslide for the city hall organization is responsible for the defeat of Wilson, Juul, and Chindblom in the three Chicago districts. All three had the support of the anti-Thompson forces. Elliott W. Sprout has a fair chance for the mayor and now a member of the constitutional convention, he defeated Congressman Juul, and William Johnson, delegate in the late national convention, has eliminated Congressman Chindblom.

Congressman Copley's defeat is not limited by his managers in the district and the official count may be reduced, but fairly certain figures show that Frank A. McCarthy of Elmhurst, a member of the last legislature, is an avowed wet, has won.

"Hall" Legislators Win.
First returns from the legislative districts in Chicago show that the sweep for the city hall has nominated all of the candidates for the house of representatives endorsed by the hall. Edward J. Smejak, chairman of the appropriations committee for the hall, seems to be the only city hall favorite who was defeated. The Italian combination in the district did that.

Senator Al P. Gorman, the Democratic state leader, seems to have been in the fourth to former Ald. Frank M. Demott, and in the Evanston district Senator James J. Barbour has been defeated for re-election by M. V. Kearney, it seems.

VOTE ON CONGRESSMEN
Incomplete vote for congressional nominees is as follows:
FIRST DISTRICT
Seventy-six precincts out of 145 give:
DEMOCRATIC
Men. 1,189
Women. 413
Total. 1,602

SECONDD DISTRICT
One hundred and twenty-three precincts out of 241 give:
DEMOCRATIC
Men. 1,000
Women. 1,000
Total. 2,000

THIRD DISTRICT
Ninety-two precincts out of 240 give:
DEMOCRATIC
Men. 1,000
Women. 1,000
Total. 2,000

FOURTH DISTRICT
Seventy-eight precincts out of 159 give:
DEMOCRATIC
Men. 1,000
Women. 1,000
Total. 2,000

FIFTH DISTRICT
One hundred and thirty-six precincts out of 291 give:
DEMOCRATIC
Men. 1,000
Women. 1,000
Total. 2,000

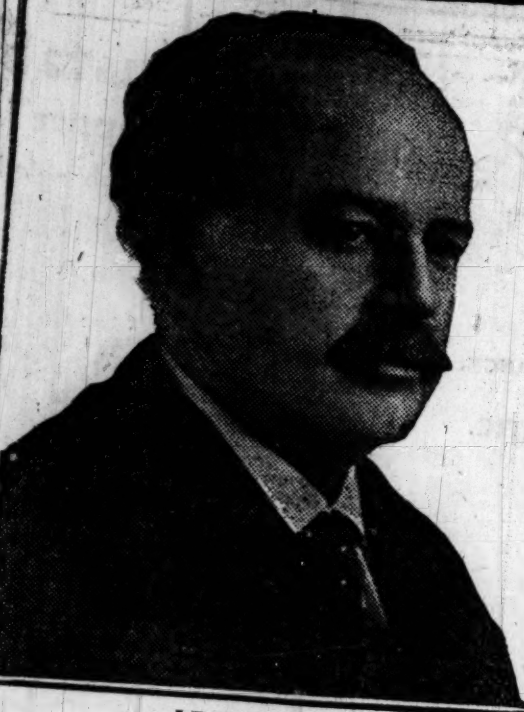

SIXTH DISTRICT
One hundred and thirty-six precincts out of 291 give:
DEMOCRATIC
Men. 1,000
Women. 1,000
Total. 2,000

SEVENTH DISTRICT
One hundred and thirty-six precincts out of 291 give:
DEMOCRATIC
Men. 1,000
Women. 1,000
Total. 2,000

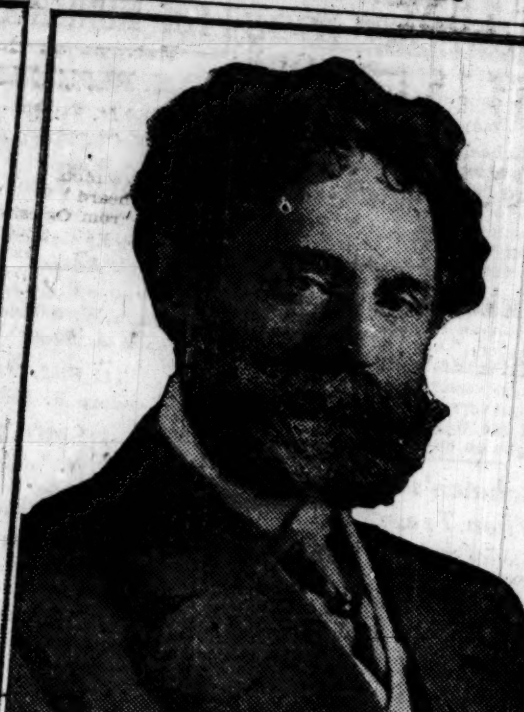

EIGHTH DISTRICT
One hundred and thirty-six precincts out of 291 give:
DEMOCRATIC
Men. 1,000
Women. 1,000
Total. 2,000

NINTH DISTRICT
One hundred and thirty-six precincts out of 291 give:
DEMOCRATIC
Men. 1,000
Women. 1,000
Total. 2,000

PROBABLE WINNERS FOR GOVERNOR

LEN SMALL,
Leading for Republican nomination for Governor.
(Photo Nation.)

JAMES HAMILTON LEWIS,
Leading for Democratic nomination for Governor.
(Photo Hayes.)

SENATE VICTORS ON EARLY RETURNS

FRANK L. SMITH,
Leading for Republican nomination for Senator.
(Photo Moffett.)

ROBERT EMMET BURKE,
Apparently winner of the Democratic nomination for senator.

CROWDS WATCH VOTE BULLETINS, BUT OMIT CHEERS

Loop Dawdles Through Its
Primary Night.

Quiet and leisurely was the election crowd that wandered into the loop last night to see how the candidates were faring.

Down on Michigan avenue the boulevard strollers tarried for a time to observe the handwriting on a bulletin board. On Madison street east of the "L" structure another group of several hundred congregated and looked. The newsmen's band played its tunes, the comic movies, interrupted ever and anon by a series of election flashes flickered on the screen, the extra laden newspaper wagons darted back and forth—but the town showed small enthusiasm for the results. Scarcely a cheer was heard.

The Impartial Old Timer.

Among the onlookers is a bearded citizen, toothpick in mouth and Barasa button on his frayed lapel. When last season he had been dining assiduously at the Big Brothers' Christmas dinner in the corridors of the county building. His full name, he takes pains to inform you, is William Henry Froggett of 428 South Clark street, and he is 84 years old.

"I'm well known and well liked," he asserts modestly. "I'm probably the best known man in the city."

He announces he had intended to vote for Judge Barasa, but overleapt. At that instant a Hoynes poster catches his eye.

"There's a good fellow," he declares a moment later vouchsafing that Mike Hoynes—"he's running for sheriff of the state, you know"—is a clever person and good looking.

Mr. Froggett on Suffrage.

"And what do you think of the ladies voting?" he is respectfully asked. There is a cogent pause, then—"Well, why the hell not? They mean well," says Mr. Froggett.

The sidewalks have been cleared of the small crowd that marched them. Here and there a group of men still are talking politics. A street flusher passes by. And on the sidewalk at the corner of Clark and Madison streets a gray cat, reminiscent of the tiger, purrs and gazes complacently about.

COL. HOUSE WON'T TALK OF POLITICS OR THE LEAGUE

New York, Sept. 15.—[Special].—Col. E. M. House, President Wilson's most intimate adviser before the Fiume question arose, returned today with Mrs. House from a three months' trip in Europe. Col. House declined to discuss either the league of nations or the result of the Maine election.

Asked about general industrial and economic conditions in Europe, the colonel said:

"England is interesting. With a nationwide strike threatening, with industrial conditions topsy-turvy, with the Irish question assuming the proportions of a menace, the people are calm, almost stolid. But they are not indifferent."

"I found none of the alleged resentment towards Americans in France. On the contrary, I found the kindest feeling toward the United States."

"Germany has begun to deliver coal to France under the terms of the Spa agreement. This has proved a great encouragement to French industry."

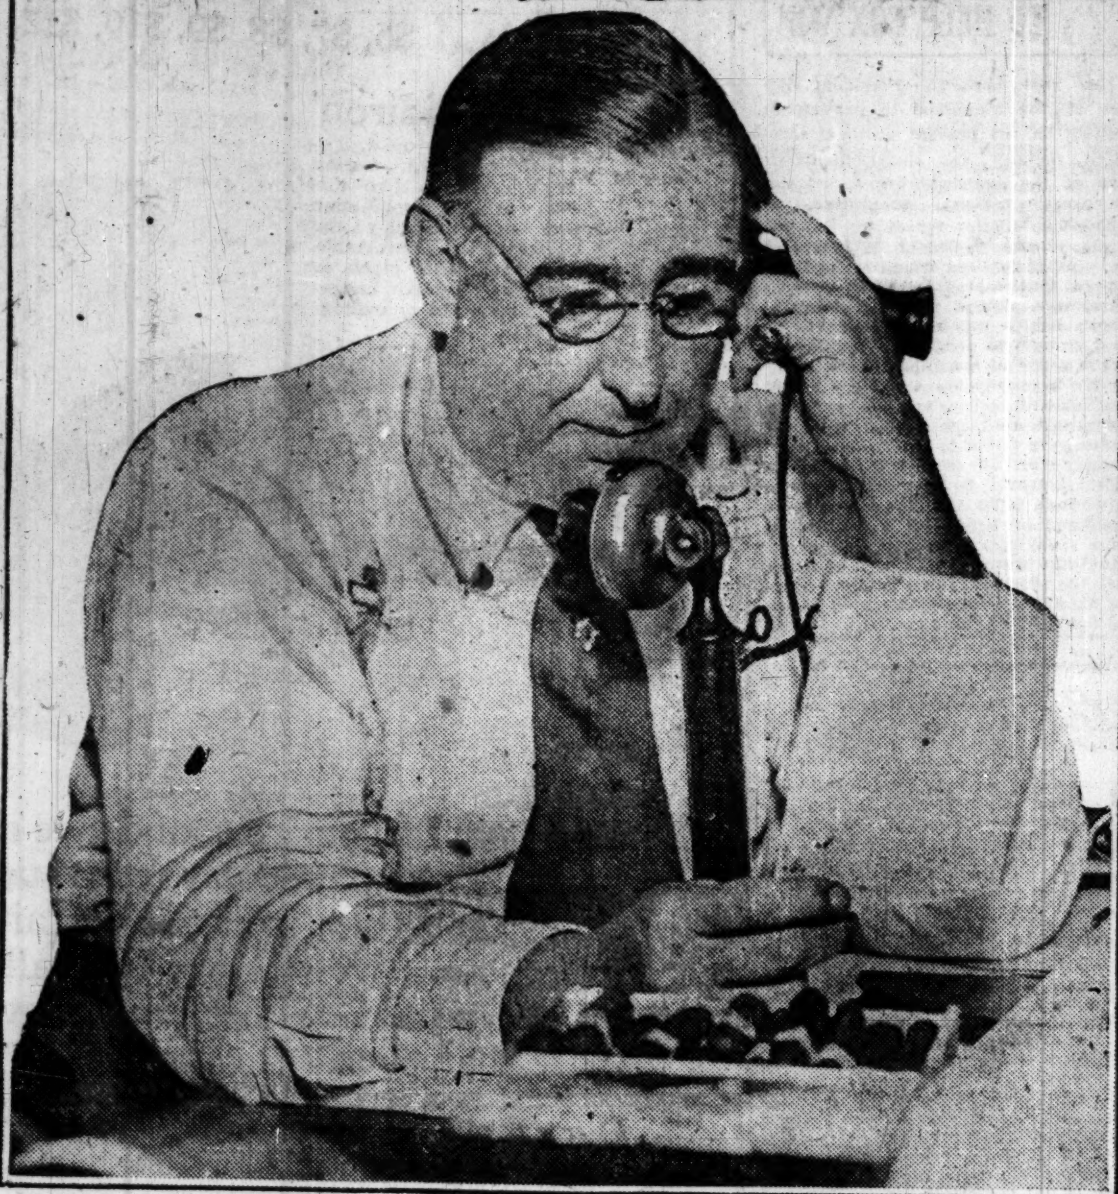

Col. House was particularly impressed by the remarkable recovery of Belgium from the war, and by the energy of the French. Concerning Belgium Col. House said:

"It is teeming with industry. Save for the battlefields and the ruins, one would scarcely know Belgium was actively at war less than two years ago."

Lake Villa Claims to Be Banner G. O. P. District

Lake Villa, Ill., Sept. 15.—[Special].—Lake Villa township in Lake county claims to be the banner Republican district, with 315 Republican votes to three Democratic.

AIN'T HE GRAND?

(TRIBUNE Photo.)
MAYOR WILLIAM HALE THOMPSON.

Mayor Thompson, surrounded by his associates, preferred to do his own telephone answering. He peeled down to his shirtsleeves and galluses, smoked eagerly, smiled much, and congratulated the people.

ALBANIA CALLS FOR HELP TO OUST INVADING SERBS

Washington, D. C., Sept. 15.—President Wilson and Premier Lloyd George and Millerand have been asked by the Albanian government to take steps to compel Serbia to withdraw its troops from Albanian territory. C. A. Chetkeli, Albanian commissioner to the United States, announced today.

These requests were made, Mr. Chetkeli said, because the Albanian-Serbian conflict "has been lately assuming alarming proportions that might endanger the peace of the Balkans."

The communication to President Wilson says:

"We are informed by our government that the Serbians have reached the region of Mati, passing thus far beyond the limits fixed by themselves in 1913, and have destroyed about forty villages."

"The Albanians have repulsed these invaders, but, being exhausted and weak in numbers, are unable to resist indefinitely the millions of Jugo-Slavs who are seemingly determined to destroy our nation. Your excellency is implored to take immediate steps in order to secure the withdrawal of the Serbians from Albania and save our nation from destruction. Otherwise gravest consequences will follow throughout the Balkans."

U. S. Fla. Displaces British Colors at Labor Parley

Pittsburgh, Pa., Sept. 15.—A great British flag, "taped on the wall above the platform in the hotel where were assembled the delegates to the convention of the International Union of Steam and Operating Engineers today caused the suspension of business until it was replaced by the American colors. P. J. Horan, a delegate from Elmhurst, L. I., protested against the presence of the flag because no American flag of equal size was in sight. A new American flag then was draped above the platform.

FOREIGN NEWS —IN BRIEF—

PISA.—Eye witness account of visitor to the Italian earthquake region. People living in the open by thousands. Earthquake wrecks rocky hills, but low, sandy places escape. Whole region rich with farm produce.

TOKIO.—Foreign office denies newspaper reports that failure of United States to answer last Japanese note regarding Island of Saghalien is considered tantamount to American approval of the Japanese position.

CONSTANTINOPLE.—Wrangle carries out another swift change of front and wins another victory over the bolsheviks.

PARIS.—Italian battleships arrive Genoa, where reds seized merchant shipping. Milan has plan for peace.

PARIS.—President Deschanel cannot sign important treaties and new president is about to be chosen for France.

LONDON.—MacSwiney swiftly declines on thirty-fourth day.

PARIS.—Poles leave for Danzig and Riga, where they will confer on peace with the bolsheviks.

Ida Von Clausen and Mate Make Up; He Pays \$50,000

Reno, Nev., Sept. 15.—[Special].—Ida Von Clausen-Davis-Dona-Mayberry, who yesterday filed suit for annulment of her marriage to Capt. Raymond H. Mayberry, cinema star, to whom she was married a week ago, today announced a reconciliation has been effected. Mayberry has agreed to assign her \$50,000 if she would return to him, she said, and added that \$50,000 is not "picked up" every day. She will dismiss the divorce suit.

Mrs. Mayberry admits she has a husband in the east whom she has never divorced. Because of this admission the district attorney is understood to be planning to institute bigamy proceedings against her.

BOTH IGEE AND CROWE PROMISE TO ROUT CRIME

Better administration of the criminal law was promised Chicago last night by both Democratic and Republican nominees for state's attorney.

Judge Robert E. Crowe, Republican nominee, said he had anticipated this victory.

"If I am elected," he declared, "I promise a clean and efficient administration of my office. I promise to protect Chicago against lawlessness to the full extent of my powers. And I wish to thank those who have stood loyally by me in the primary battle."

Michael L. Igge, Democratic nominee, said:

"I was not surprised at the result. The people of Cook county want a new deal and a square deal in the administration of criminal law. They want criminals punished, not turned back upon the community to resume their predatory practices. They want crime eradicated, not organized and protected."

"I stand for exactly that, and will so conduct my campaign from now until election. If the fathers and mothers of Chicago will join with me, I will make Chicago cleaner, safer, and better."

Ida Von Clausen and Mate Make Up; He Pays \$50,000

Reno, Nev., Sept. 15.—[Special].—Ida Von Clausen-Davis-Dona-Mayberry, who yesterday filed suit for annulment of her marriage to Capt. Raymond H. Mayberry, cinema star, to whom she was married a week ago, today announced a reconciliation has been effected. Mayberry has agreed to assign her \$50,000 if she would return to him, she said, and added that \$50,000 is not "picked up" every day. She will dismiss the divorce suit.

Mrs. Mayberry admits she has a husband in the east whom she has never divorced. Because of this admission the district attorney is understood to be planning to institute bigamy proceedings against her.

WOMEN VOTERS SCAN RETURNS JUST LIKE MEN

Keep Tribune's Phones
Busy by Thousands.

Seven seraphs, sitting before a busily blinking switchboard until the early morning hours, told an inquisitive city what the ballots were saying. More than 25,000 inquiries came over the wires—and fully one-third of the questioners were women. But let Miss Anna Garrow, chief of The Tribune's phone girls and the heroine of many an election night, tell her sister voters all about it.

BY ANNA GARROW.

The ladies came into their full rights by telephone last night, availing themselves of the information service extended by the W. G. N.'s switchboard. An increased force of operators worked arduously, giving the latest bulletins on the primary vote to all inquirers.

Receive News Like Vets.

I should say that the women's interest was as keen as the men's and their appreciation ever greater for obtaining just the information they were after. They received the news like vets and did not register disapproval as noisily as did some of our time honored male voters. The ladies were instant, however, to hear just what THE TRIBUNE thought would be the ultimate results.

At about 7 o'clock, or just after dinner, the noticeably mixed men and women callers began pouring in their questions. They kept it up until about 10 o'clock, when the voices became mostly bass and tenor. Even from far out of town—Evansville, Milwaukee, Peoria, Lake Geneva, and other points—the queries came a couple of dozen strong.

You Can't Stump Them.

And there was no question my girls could not answer.

"Who's winning for mayor?" asked one woman, who evidently hadn't read her Tribune closely enough.

"Thompson," replied Marie.

"By how much?"

"Two years."

And so the questions came until far into the night. When our record of calls reached 25,000 we discarded our computers and called it a day. For the ladies had come into their own!

VIOLATED GAME LAW ON BARUCH ESTATE, CHARGE

New York, Sept. 15.—Federal investigation of the shipment to New York city of ducks shot upon the Georgetown, S. C., estate of Bernard M. Baruch, former chairman of the war industries board, in alleged violation of federal game laws, is being conducted by United States officials here.

Mr. Baruch said tonight he understood the inquiry had been started and "presumed" he would have to appear.

"There was no shipment of birds out of season," said Mr. Baruch. "There seems to be a misunderstanding. An inquiry has been instituted concerning the number shipped from my place at Georgetown, S. C. I had a number of guests at the place, and apparently shipments were made by various men, friends of mine, as well as by myself. Some may have been shipped after I left there."

CANDIDATE

Woman Who Was Nominated
for Secretary of State by the
Democrats of New York.

HARRIET MAY MILLS.

New York, Sept. 15.—Harriet May Mills, unopposed Democratic candidate for secretary of state, was the only woman nominated for state office by the two major parties at the primaries yesterday. The Prohibitionists nominated Irene B. Taylor for secretary of state and the Socialists named Hattie F. Krueger for state treasurer.

FLYERS SEEKING MAIL AVIATOR LOST IN DESERT

Reno, Nev., Sept. 15.—Thirty-five hours after leaving Reno, nothing definite has been heard of the whereabouts of Pilot John L. Eaton of aerial mail plane No. 6881, who left Reno Tuesday morning at 5 o'clock en route to Elko, Nev., a station between this city and Salt Lake City, Utah.

Two army airplanes are being used in a search for Eaton. A privately owned plane also is being used.

Eureka, 200 miles east of Reno, reported a plane flying over that place at 10:30 Tuesday morning. This bears out the reports that Eaton had flown east to Fallon, where he was last identified, as Eureka is directly east of Fallon and about fifty miles east of Elko, his original destination. It is believed he was forced to land in the Nevada desert.

A privately owned plane spent the entire day scouting in the vicinity of Winnemucca, 150 miles northeast of Reno.

Pilot Black, flying plane No. 154, who left Elko at 3 o'clock, was forced to land at Elko, Nev., fifty miles east of Reno, on account of engine trouble. He was bound west.

SOCIALISTS PICK TICKET WITHOUT A BIT OF FUSS

State and County Candidates Named.

Gustave T. Fraenkel for United States senator and Andrew Lash for governor head the Socialist ticket nominated yesterday.

There were no contests for places on the state and county Socialist tickets. With the exception of candidates for clerk of the Appellate court and judge of the County court, the Socialists will have a complete state and county slate at the election on Nov. 2. Socialist candidates for the legislature were also nominated in most districts.

The nominations follow:

United States senator—Gustave T. Fraenkel. Governor—Andrew Lash.

Lieutenant governor—George Koop. Secretary of state—Clarence H. Owen. State auditor—Ansel M. Brooks.

State treasurer—Charles E. Peck. Attorney general—Leopold Saltil. Clerk of Supreme court—William Bryan.

Representatives in congress (at large)—Frank H. Hall and John Hubert.

Sanitary district trustees—Max Silverman, John C. Flora, and Adolph Drefuss. State's attorney—William A. Connel. County recorder—Robert H. Howe.

Circuit court clerk—Albert C. Kalk. Superior court clerk—Henry S. Wickman. Coroners—Aaron J. Dubin.

Board of assessors—Joseph Horvath and John McGinn. Board of review—Frank Elmer. County surveyor—Andrew H. Kell.

Only five candidates were nominated for the eleven vacancies on the Municipal court bench. They were Daniel Ureta, Kasimir Gogus, Louis R. Holmes, Christian Meler and Mordecai Shulman.

Jacob Babler Denies Giving Up His G. O. P. Duties

St. Louis, Mo., Sept. 15.—Jacob L. Babler, Republican national committee chairman from Missouri, flatly denied today he had entered into an agreement with Chairman Will Hays of the Republican national committee to allow the state committee to assume any of the duties of the national committee.

\$200 WAGE CALLED NECESSARY. John Kennedy of New York City, eastern representative of the Amalgamated Association of Meat Cutters and Butcher Workmen, testified at the wage hearing before Federal Judge Samuel Alchuler yesterday that a salary of from \$40 to \$50 a week was necessary as a living wage for a family of five.

To make salads tastier and more healthful use imported Pompeian Olive Oil

WOMEN TO BOOST G. O. P. MAJORITY, HARDING SAYS

No Mortgage on U. S., Maine Vote Shows.

BY PHILIP KINSLEY

Marion, O., Sept. 15.—[Special.]—Senator Harding regards the Maine election results as an unqualified endorsement of his position in keeping America "unmortgaged." While awaiting the returns today he said that he did not regard it as an indication of the trend of the woman vote, but a sign of the way the whole American vote is going in November. He does not think in terms of the "woman problem" or the "woman vote." It is one problem, he said, and the entrance of the women into the vote will only increase the size of the Republican majority.

The candidate, however, intends to give special attention to the guidance of the women into the field of politics.

Message to Women.

He addressed an important message today to Mrs. Ray F. Zucker, president of a woman's Harding and Coolidge club of New York city, outlining the growth of the party system in politics, and urging the women voters first of all to join one of the two great parties. He took up the league of nations issue, saying:

"We are desirous of preventing war. Let us not break the heart of the world by any more delusions. Let us unite America behind a new proposal to the other nations for the prevention of war and for amicable relationship in world administration. Let us, in doing this, preserve our own national conscience at home, and not check it at Geneva."

Offers Women Hope.

The Republican party, the senator said, offers to women voters the best hope of measure of social justice aimed at preservation of our human resource and of the American home.

"We Republicans," he continued, "are committed to a policy of solving housing problems and encouraging home owning. The platform of our opponents fails to consider this subject. We have declared specifically for a long list of social justice and social welfare measure, unmentioned by the Democratic platform. We stand now, as the Republican party stood before the granting of suffrage, for participation of all our citizenship in the formation of the people's free will. It is needless to point to the fact that Democratic votes in our congress and Democratic governors and Democratic legislatures of Democratic states, have been the forces of obstruction which have prevented earlier action upon the universal grant of suffrage."

League Means War.

"American women must realize that the league of nations, as presented by a Democratic administration, would not mean peace for us, but would mean American boys living in army tents overseas and exposed to the causes in which they would have no heart. Such a league as the American people have rejected would mean mandates undertaken in far away places. Such a league as has been devised by bungling hands would not mean peace and unity with the world, but entanglements, stress, and the return of bodies of our men who had been called across the ocean on strange, un-American errands."

ROBBED OF ALL BUT HIS HEADACHE.

Charles Page awoke in a dark alleyway at South Halsted street and West Harrison street yesterday. He had a headache (induced by booze), a coat, and shirt. Thieves had stolen the rest of his apparel.

LUNCH IS LATE, SO MORRIS FLIES TO HIS SUPPER ENGAGEMENT

"How vexing!" exclaimed Edward Morris, president of Morris & Co., when

a luncheon of the Institute of American Mount Packers

was served tardily in Atlantic City yesterday. "Mother will certainly wait supper for

me."

"Why not fly to Glen Cove?" suggested H. S. Hick-

et, manager of the firm.

A plane was chartered and in little more than an hour Mr. Morris and his com-

panion had Edward Morris.

Mr. Morris was waiting to take them to the summer home of Mrs. Morris at Glen Cove, not far away.

After spending the night, Messrs. Morris and Hicket were scheduled to leave Curtis field in an airplane this morning, to fly to Philadelphia for a business conference.

BY ROBERT B. SMITH.

Salt Lake City, Utah, Sept. 15.—[Special.]—Gov. James M. Cox would

up a day's stamping trip across Utah today with a night meeting at the

Mormon tabernacle, at which he hailed the proposed world court plan put

forth yesterday as an added reason for America to join the league of na-

tions.

He declared that the world court proposal could not in any way be regarded as a substitute for the league of nations. He told the audience that it might "confidently look forward to another frantic effort from Marion to confuse the public on the league issue."

Approves World Court.

Giving his hearty approval to the world court scheme, formulated in part by Elihu Root, Gov. Cox characterized it as a sort of league of nations "supreme court." It would amount to nothing, however, he said, "without the force, moral and otherwise, the composite power of nations of the world, if it is necessary to apply it to the decisions of the tribunal."

"In a mad effort finally to offer some substitute to the people of this country who ardently desire the blessings of peace, the candidate of the opposition on Aug. 23 made the suggestion that a world court of justice be established for the purpose of settling disputes," said Gov. Cox. "Later there were hints from Marion that such a court was being organized by Elihu Root, which was to be a substitute for the league of nations."

Court Part of League.

"Today we learn that the commission, of which Mr. Root is a member, has made its report, establishing a world court for the adjudication of questions according to rules of law. We find, however, that this court is a part of the league covenant; that Mr. Root and his colleagues were appointed by the council of the league, and that their report is now to be submitted to the various members of the league."

"It is apparent, therefore, that this court of international justice, which Mr. Harding would substitute for the league of nations, now appears as an essential part of the league and one which, without the league, would have no standing whatever."

Work Ahead for Harding.

"This limb having been cut off, Mr. Harding sitting on the end, may confidently look forward to another

frantic effort from Marion to confuse the public and to keep both Senator Johnson, who is against any kind of a league, and Elihu Root, who is not only for the league but has performed valiant service for the existing league for the party candidate."

The Democratic nominee began speaking at 8 o'clock this morning before a crowd at Pocatello, Idaho. Much of his day, however, was spent addressing crowds which came to greet him at Logan, Brigham, and Ogden. The governor's speeches were somewhat lacking in the accustomed fireworks today. He devoted most of his talks to pleas for the league of nations, which he has heard is popular in Utah.

Promises to Reclaim Lands.

At Ogden, he promised the audience that if he was elected the league of nations would be ratified, money would no longer be spent on battleships, and the government funds would be used for such purposes as the reclamation of Utah desert lands.

"I am going to take the price of a battleship and reclaim 250,000 square miles of land," he said.

At Brigham he said: "Maine went Republican the other day. It usually does. But what happened the day after the election? Well street went down and the price of wheat went down. The Republican party platform talks about deflation. Now from which was the deflation yesterday?"

New York, Sept. 15.—President Wilson will be requested to participate actively in the present national campaign, Senator Pat Harrison, chairman of the speakers' bureau of the Democratic national committee, announced today.

The reason President Wilson had not previously been asked to lend his aid to Cox and Roosevelt, Senator Harrison explained, was that the president's health was not thought to be good enough to permit his indulgence in the ardor of a campaign.

"We certainly do want the president to do all he can, and have received assurances that his accord with the Democratic ticket is of the heartiest," Senator Harrison said. "We were surprised, however, to learn from a newspaper item today that there was some likelihood of President Wilson doing some speaking. There is nothing we would like better. I shall get in touch with the president immediately, soliciting his aid in whatever form he deems most advisable and expedient."

GOV. COX FAVORS ROOT PLAN FOR WORLD'S COURT

Calls It Part of League of Nations.

BY ROBERT B. SMITH.

Salt Lake City, Utah, Sept. 15.—[Special.]—Gov. James M. Cox would

up a day's stamping trip across Utah today with a night meeting at the

JAP PROBLEM ACUTE; TOKIO WANTS DECISION

Eager to Settle It Before Wilson Steps Out.

BY ARTHUR SEARS HENNING.

Washington, D. C., Sept. 13.—(Special.)—The controversy with Japan over the rights and privileges of Japanese on the Pacific coast has reached a serious stage and bids fair to become a national question, if not one of the issues in the presidential election.

Here are the developments in the situation today:

1. The convention of Veterans of Foreign Wars here unanimously adopted a resolution advocating the exclusion of Japanese and a constitutional amendment withholding American citizenship from American-born Japanese and other "unassimilable races."

2. Japanese Ambassador Shidehara was authorized by Tokyo to negotiate formally with the state department for a new treaty or other understanding regarding Japanese property-holding and more clearly and effectively restricting Japanese immigration.

3. Senator Harding's pronouncement favorable to the exclusion of Japanese at the ground of "racial difference" suggested the possibility that the Republicans are prepared to take a firmer stand than have the Democrats on the Japanese issue.

4. While continuing to insist on the restriction of Japanese immigration, the administration purposes to continue its objection to the occupation of the Russian half of Saghalin island, off the Siberian coast, and is preparing a rejoinder to Tokyo's reply to the original American protest.

What Veterans Demand.

Asserting the right of the United States to determine what peoples shall and shall not settle in this country and pronouncing Japanese "immigration a national menace," the resolutions of the Veterans of Foreign Wars which were transmitted to the state department, urge:

1. Abrogation of the existing Japanese treaty and of the so-called gentlemen's agreement, so far as they permit of Japanese (other than merchants, students and travelers, temporarily and in good faith) to enter this country.

2. Enactment of legislation prohibiting Japanese, other than as above indicated, to enter this country.

Parents Must Be Eligible.

3. Enactment and submission of an amendment to the federal constitution providing that no child born in the United States of foreign parentage shall be considered an American citizen unless both parents are of a race eligible to American citizenship.

4. That no legislation be passed nor diplomatic action be taken looking to the naturalization of the Japanese in this country.

Informal negotiations between Am-

HIS "LAST SWIM OF THE SUMMER" COSTS YOUTH OF 19 HIS LIFE

The air felt more like July than September when Walter Grodon, 19, left his residence at 5618 Drexel avenue yesterday.

Gordon decided not to go to work, but instead to take his last plunge of the year in the lake.

At 5614 Drexel avenue resides Eugene Stocking, who has retired from business.

"Come Gordon," he called, "the water is fine."

Gordon bade him, and the older man assented.

They went to the foot of East Fifty-fourth street, where after about an hour, they became separated and Stocking saw his companion standing in about four feet of water.

His attention was next attracted by a cry. Gordon, seized by a cramp, was falling over back.

Ward Stocking made frantic efforts to reach him. But the youth did not come to the surface.

Stocking tried to recover the body, but couldn't. He cried for help and the Jackson park coast guard was summoned.

Then police from the Hyde Park station came to the scene.

Two hours later EUGENE STOCKING, their search was successful.

bassard Shidehara and Secretary Colby looking to a settlement of the immigration and property-holding controversy have been in progress for some time, and an informal agreement on the principle of a settlement is reported to have been reached, a principle so satisfactory to Tokyo that formal negotiations have been authorized.

It is not difficult to understand why Tokyo would prefer to deal with the Wilson administration. When the house passed a Japanese exclusion bill in 1916, Ambassador Chinda presented Tokyo's protest so forcefully at the White House that the president called a halt and caused the Democratic congress to enact a law excluding nearly all Asiatics except the Japanese.

PARIS, Sept. 15.—The question of racial equality for the Japanese, over which the Versailles peace conference nearly split, will be one of the most important problems confronting the general assembly of the league of nations when it meets Nov. 15 in Geneva.

Diplomats here regard Japan's decision to make the first meeting of the league assembly the battle ground a strategic one, as at the Geneva meeting the Japanese will not face such opposition.

NEGOTIATIONS CONTINUE.

Washington, D. C., Sept. 15.—Negotiations between the American and Japanese governments regarding the Japanese immigration and Saghalin occupation questions still are continuing. It was learned today that Kijuro Shidehara, the Japanese ambassador, had been empowered by his government to conduct the negotiations directly with Secretary Colby.

Jack Johnson Gives Up Fight to Escape Prison

Billposters can now tear down the black belt signs advertising the "comeback of Jack Johnson." Wednesday the Negro pugilist was sentenced to a year and a day in Leavenworth prison and yesterday his attorney, after a vain effort to have him released on bail, declared unless something new came up, no further attempt to have the sentence changed would be made.

Attorney S. A. T. Watkins had asked Judge Samuel Alchuler for a writ of error. The judge informed the attorney that even if he decided to grant the writ he would not release Johnson on bail. Watkins withdrew his petition.

Johnson was convicted of transporting Belle Schrieber, a white woman, from Pittsburgh, to Chicago.

TIED TO AUTO AND ROBBED.

Quincy Bluffs, Ill., Sept. 15.—Two masked bandits today ransacked Dick Bremer, Wabash employe, chained him to his automobile, and robbed him of \$635.

PARIS, Sept. 15.—The question of racial equality for the Japanese, over which the Versailles peace conference nearly split, will be one of the most important problems confronting the general assembly of the league of nations when it meets Nov. 15 in Geneva.

Quincy Bluffs, Ill., Sept. 15.—Two masked bandits today ransacked Dick Bremer, Wabash employe, chained him to his automobile, and robbed him of \$635.

PARIS, Sept. 15.—The question of racial equality for the Japanese, over which the Versailles peace conference nearly split, will be one of the most important problems confronting the general assembly of the league of nations when it meets Nov. 15 in Geneva.

Diplomats here regard Japan's decision to make the first meeting of the league assembly the battle ground a strategic one, as at the Geneva meeting the Japanese will not face such opposition.

NEGOTIATIONS CONTINUE.

Washington, D. C., Sept. 15.—Negotiations between the American and Japanese governments regarding the Japanese immigration and Saghalin occupation questions still are continuing. It was learned today that Kijuro Shidehara, the Japanese ambassador, had been empowered by his government to conduct the negotiations directly with Secretary Colby.

Jack Johnson Gives Up Fight to Escape Prison

Billposters can now tear down the black belt signs advertising the "comeback of Jack Johnson." Wednesday the Negro pugilist was sentenced to a year and a day in Leavenworth prison and yesterday his attorney, after a vain effort to have him released on bail, declared unless something new came up, no further attempt to have the sentence changed would be made.

Attorney S. A. T. Watkins had asked Judge Samuel Alchuler for a writ of error. The judge informed the attorney that even if he decided to grant the writ he would not release Johnson on bail. Watkins withdrew his petition.

Johnson was convicted of transporting Belle Schrieber, a white woman, from Pittsburgh, to Chicago.

TOKIO DENIES U. S. O. K. ON JAP ACTS IN SIBERIA

Continue Negotiations on Disputed Points.

TOKIO, Sept. 14.—[By the Associated Press.]—[Delayed.]—Newspaper reports that Viscount Uchida, foreign minister, told members of the opposition party yesterday that the fact that America had not replied to the latest Japanese note regarding the island of Saghalin was considered tantamount to American approval of the Japanese position, are denied at the foreign office.

Reports that it has been decided to withdraw Japanese troops from Khabarovsk, Siberia, are confirmed by the foreign office, which explains that Khabarovsk was occupied because of the fact that Nikolaievsk also was under control of Japanese. Nikolaievsk is being evacuated because of the extreme cold which prevails there during the winter months.

Future Policy Undecided.

The future policy to be pursued depends upon circumstances, it is said. There have been various press interpretations of Viscount Uchida's remarks in answering a question relative to Japanese children in Hawaii studying the Japanese language, and possible objection on the part of America. It is officially stated that the foreign minister said he saw no reason why there should be any interference in this work.

Negotiations Continue.

Washington, D. C., Sept. 15.—Negotiations between the American and Japanese governments regarding the Japanese immigration and Saghalin occupation questions still are continuing. LOCALLY.

At the time of going to press it looks like Bill Comment falls in.

MEXICAN OIL.

If Mexico were peaceful and orderly its production of oil could be greater than the total present production of the world. This is the conclusion of the United States bureau of foreign and domestic commerce after a survey of the Mexican petroleum situation.

What this comes to in plain English is this: Mexico must become peaceful and orderly.

In other words, the civilized world will not be shut out from the supply of one of its chief necessities because of the question of political sovereignty. That sovereignty will be respected only so long as it respects certain responsibilities ascribed to members of the family of nations. No people can hope to hold resources required by the world over and above its own needs. No people can look up resources required by the world. Independence in this sense never existed except for the most powerful nations, and Mexico does not so classify.

In other words, Mexican statesmen, if they would preserve Mexico from invasion of its political sovereignty, will recognize that a condition of world peace rather than a theory of political science or of international law confronts them, and they will understand that what Mexico does must conform to this condition whether it conforms to a theory or not.

We hope the present Mexican government is pragmatic rather than rhetorical and will gracefully recognize that as a matter of fact since the world needs it will get it.

This being granted, we hope the Mexican government will also be inclined to grant without other influences than its spontaneous perception of the fitness of things that its neighbor, the United States, has a certain priority of claim to assist in the adequate development and to share the surplus product of Mexican oil resources.

If there is sensible recognition of these truths the United States can and will not only live in peace with Mexico, but will very powerfully aid in her development on terms entirely consistent with the Mexican nation's political sovereignty and very favorable to the prosperity and progress of the Mexican people.

Mexican opinion has always been mistaken about American intentions toward Mexico. Its fear of military conquest and of political absorption has been at no time justified by preponderant American opinion or by official purpose. Mexican politics has been the chief danger to peaceful relations between us. If that can be enlightened and made more responsible, an accord can be established which will be more profitable to Mexicans than to the United States.

If it is not, the United States will certainly in some form or other, sooner or later, assume control, by whatever means may be necessary, of Mexican affairs. This will not be the result of deliberate intent to rob Mexico of her political independence, for no such intent exists. It will be the spontaneous compulsion of circumstance, the result of forces no government can or will disobey. The will to keep the peace is dominant north of the Rio Grande. But peace cannot be kept if the Mexican ruling class does not recognize what the bases of a durable peace really are. Mexico must be developed. Mexico must have external aid for her development. The United States for the sake of its own safety cannot afford to have any other power than herself as a partner of Mexico's progress. The United States can afford to cooperate with more profit to Mexico than any other people. The alternative is war and perhaps permanent conquest.

The United States can be a good neighbor and a powerful agent in the progress of Mexico, and will be, if Mexican politicians will permit. If they do not permit, we shall most certainly enforce our legitimate interests by whatever measures are necessary.

BACK TO THE SEA.

Patriotic Americans who have doubted the possibility of the return of American seamen to a place on the seas equal to that of other maritime countries will be pleased to read the announcement from the bureau of navigation at Washington that more than 60 per cent of the seamen now employed on American vessels are American citizens. The facts speak well for the future of the American merchant marine.

Young Americans are turning to the sea as a field of livelihood. The sea service bureau of the shipping board has placed 160,867 officers and men on American vessels during the fiscal year ending June 30, 1920. Of this number 65.7 per cent were Americans. Such a return of American youth, American energy, American intelligence and initiative to the sea means more to our merchant marine than all the other steps which have been taken to rehabilitate our ocean carrying trade.

When they applied themselves to navigation in the days of the clipper ships Americans led the world. It was an American seaman who charted the trade winds. Americans ended the ancient practice of reducing sail at night. Americans applied new ideas of such value that an American ship could sail into a British port and receive a cargo at a rate above normal, while a British ship would find it so difficult to get out that it could not give equal speed to a service.

Americans could do these things in the days of sail, so believe they can do similar things in the days of steam. The sea is being made attractive to Americans. The sea service bureau of the shipping board is to be congratulated upon its educational service to make seamanship a trade and

navigation a profession which will attract and hold Americans. By such means the hope of seeing the American flag in every port of the world will become more than a sentimental idea.

COX DWINDLES.

Maine having gone Republican by 65,000, Mr. Cox puts up the figure he says Republicans are going to collect to buy the presidency. He is no longer satisfied with a mere \$15,000,000. That might have been all right if Maine had returned a normal majority. But 65,000 votes for heroic measures, therefore he assures the citizens of Nampa (Idaho) that the corruption fund is not \$15,000,000, but \$25,000,000, or \$30,000,000.

The less verification the more vociferation is Mr. Cox's motto.

The progress of Mr. Cox is significant. Small bore state politics has been Mr. Cox's experience, and some allowance might be made for that fact, but as Mr. Cox has traveled he has grown smaller instead of larger. No expanding sense of his responsibilities as candidate for the highest office in the land and leader of a great historic party has come to him. On the contrary, he talks more and more like a soap box orator without that individual usual justification of sincerity.

Up to this time Mr. Cox has shown the smallest caliber of any presidential candidate for many years.

No patriotic Republican can be glad of that, though it makes Republican success the more certain. At any time it would be deplorable to have a national contest put on the plane chosen by Cox, but at a time like the present it is doubly so. We fear that as November approaches Mr. Cox will get worse instead of better in direct ratio with his chances.

THE HAGUE COURT.

The Hague Tribunal for the adjudication of justiciable disputes between nations will never count for much with the true pro-peace. It is not a panacea. It doesn't guarantee any nation against war. It recognizes that there are conflicts which a court cannot prevent or adjust.

But Americans who have kept their feet on the ground while looking for better international methods will welcome the establishment of the proposed Hague court as a step forward. They will realize that it cannot prevent war, and they will be glad it makes no such pretense. They will continue to insist that the United States shall be strong in her own right. But they will see in the court a means of avoiding much friction among nations and an agency for the evolution of international law and of peaceful methods of adjusting dangerous differences. It cannot introduce the millennium, but it can conduct the nations toward a better day.

A CLEAR TRACK.

Charles H. Markham, president of the Illinois Central railroad, has announced that instead of the public be damned policy once popular with railroads a public be served system has been adopted, which promises great success. Mr. Markham has appealed to the public for criticism and suggestion for betterment of transportation. He says the public has answered with an intelligence which is being put to good use. That is promising, but it is by no means all that must be done, as Mr. Markham and other railroad executives unquestionably know.

Railroading is a complicated business. It can be conducted successfully only by men of high ability long trained in the details of the work. The public may have a good idea on this or that point, but it cannot manage the great task of reconstruction and efficient transportation which the railroads face. This is a task for the executives.

The Interstate commerce commission has granted a reasonable income to the railroads. The railroad employees have been granted a substantial increase in pay. The "outlaw" strike has been called off. Both financial and labor difficulties have been practically eliminated. It remains now for the railroad executives to prove their right to their position, and to prove the correctness of their contention that private operation of the roads is the best operation. To do so they must provide rolling stock, improve their lines and terminals, reduce congestion, and provide a service which will justify the higher rate paid for transportation.

Mr. Markham's attitude toward the public indicates that he is trying to bring about such improvement. Let us hope that he and his fellow executives on other roads succeed, and succeed quickly. The way is clear and the future of the railroad system of the country and of much of the industry of the country is in their hands. We want results.

Editorial of the Day

THAT REPUBLICAN CAMPAIGN FUND.

(Houston, Tex., Chronicle (Democratic).)

We will not undertake to say how much money the Republican national committee intended, or would have liked, to collect, but this much is certain: Gov. Cox's revelations have served to stimulate its sense of thrift and economy.

It will be less ambitious, and more circumspect than it would have been without such timely inspiration. In this respect, at least, Gov. Cox has rendered the nation a real service.

No matter what the Republican national committee may have in mind, from now on it will walk a very straight line. Chairman Hays may be right in declaring that his tentative quotas were deliberately raised in order to set a high mark and facilitate collections, but from now on he will think twice before continuing even that practice.

It goes without saying that the Republicans have always been able to mobilize a larger campaign fund than the Democrats, and that they will be able to do so this time in spite of the disagreeable exposure to which they have been subjected.

It goes without saying that this has invariably proved a handicap to the Democrats, and a handicap which increased proportionately to the difference between the two funds.

It goes without saying that an unnecessarily large fund, though perhaps it might not involve buying the election, leads to corruption and subordination.

It goes without saying that for this reason campaign funds should be held down to a reasonable limit and should be expended only for legitimate purposes.

The importance of Gov. Cox's assault on Republican tactics consists in what he has obviously prevented. Whether the Republicans proposed to collect \$15,000,000 or only \$5,000,000, they certainly intended to use as much of it as they could get away with.

AND BURGLARY.

A Rhode Island woman announces that she will run for the United States senate on a platform of "Women and Children First." She may find that the rule works better in shipwrecks than in politics—Detroit Free Press.

PROGRESS.

Before the pen and the sword ever quite settled the superiority of their respective mightiness along comes equal suffrage demanding a hearing for the hat pin and the can opener—Kansas City Star.

A LINE OF TYPE OR TWO

How to use the line in the copy full while they may.

BECAUSE travelers, "particularly commercial travelers," have discovered a way to save money by not buying through tickets to the west, the railroads in New York are calling for help. But what we are wondering is, Does the saving in fare show on the swindle sheet?

ACCORDING to Comrade Cox the Republicans set up the liquor question as a burlesque. The burlesque set up by Mr. Cox was the campaign fund. Every man in his bugabo.

SUPPOSE THEY SHOULD NEVER MEET?

(Journal American Medical Association.) In order to prosecute this without needless overlapping of function, it will be necessary to coordinate existing agencies and direct their efforts toward the one end and along parallel lines.

LIKE a semaphore in a reckless world shines the caution of the Associated Press. A bulletin from Denver requested: "Editors—In shooting make Chinese name Yee Geow, not E. Yip Geow, as sent."

IN WHICH WE PRESS AGENT NEGLECTS TO SLIP YEE YE CUSTOMARY PAIR OF SKULLS.

(From the Winkler, Minn., weekly.) Did you ever stop to consider the vast amount of money that is taken from a town every time a tent show hits it? Did you ever stop to consider that the tent show never spends a nickel in your town? Did you ever notice that they are all practically the same—when you have seen one you have seen them all? There'll be several dances and an old-fashioned harvest picnic coming off in Winkler in the near future—better save your money now and keep it at home.

IF Maine is a political barometer, the Democratic ship is in for some extra dirty weather. Even Lloyd's might regard it as a bum risk.

THE REFLEXED GADDER.

Sir: In the writing room of a Burlington hotel a fellow gadabout asked me if m-r-r-o-w were the way to spell "mirrow—a glass." Luckily some opportunist sneezed subdued my mirth, so that in a little spell I could answer him. F. B. T.

PICTURES of lady swimmers in the rotogravure sections remind C. E. C. of the old Police Gazette which he used to pore over while waiting his turn in the barber shop. There is more or less resemblance; but even the P. G. would have hesitated to print some of the pictures which appear in the family newspapers of to-day. Other times, other notions.

A Sentimental Journey.

(From the Wayland, Ia., News.) In the morning of Aug. 12 John Christopher took me to Mr. Pleasant, and I took the 8:10 a. m. train and arrived at Colorado Springs next day at 11 a. m. In the afternoon I went to Manitou and took the road with bed, chair and table for one dollar a day. Aug. 14 I and another young man went to the Balance Rock, Garden of the Gods, and the Seven Falls. Here is a large stream of water that comes down like the Niagara Falls only it is not so large. Aug. 15 was Sunday. I went to the dedication of the new church of St. John where they had meeting, forenoon, afternoon and evening. Here I saw Fanny Elman and the Roth girls in the evening. They are well and hearty. Aug. 16 I went on the R. R. to Cripple Creek. This is a gold mining town. Aug. 17 I went to the Manitou Monument. There is an imitation of the Cliff dwelling. There is no history telling what became of them. I was also at the Pikes Peak Cog Rail Road. This engine hauls 1 carload of persons on top of Pikes Peak, the distance being about nine miles, height is 14,098 feet. Aug. 18 I was at the dedication of the new church of St. John where they had meeting, forenoon, afternoon and evening. Here I saw Fanny Elman and the Roth girls in the evening. They are well and hearty. Aug. 16 I went on the R. R. to Cripple Creek. This is a gold mining town. Aug. 17 I went to the Manitou Monument. There is an imitation of the Cliff dwelling. There is no history telling what became of them. I was also at the Pikes Peak Cog Rail Road. This engine hauls 1 carload of persons on top of Pikes Peak, the distance being about nine miles, height is 14,098 feet. Aug. 18 I was at the dedication of the new church of St. John where they had meeting, forenoon, afternoon and evening. Here I saw Fanny Elman and the Roth girls in the evening. DRYS THREATEN IMPEACHMENT OF LENIENT JUDGES

Washington, D. C., Sept. 15.—A program designed to "rid" the government of officials who do not observe the "spirit as well as the letter" of the Volstead act, was put under way at the first session today of a national conference here of Anti-Saloon league officials.

The conference appointed a committee to draft a resolution, which, league officials said, would serve notice on federal judges that their "sacred duties must be sacredly performed." The committee was instructed to report tomorrow.

Impeachment proceedings were suggested as a means to compel lax judges to employ in a proper manner the

penal provisions of the prohibition enforcement act in dealing with persons convicted of violating the law.

"The conference in its discussions evinced a determination that the next congress be made 'dry and kept dry,' the power of the veto is not entirely 'downed,' and unless a majority is maintained in congress favorable to rigid enforcement the prohibition code may be changed.

Administration officials, it was indicated, also will be brought within the league's program, several speakers asserting that in a great many instances administrative officers were not functioning to the satisfaction of the drys.

The proposal was made that the league "build fires under those who betray the trust" of their appointment. The opinion was expressed that liquor interests might seek to defeat the aim of the law by obtaining the appointment of officials who would wink at some kinds of violations.

The discussion of the league officials brought half a dozen vigorous attacks on officials of varying grades who have to do with enforcement of the Volstead act. The internal revenue bureau was criticized for issuing "scads

of wholesalers' permits," and federal judges were accused of "coddling" moonshiners and bootleggers.

Many judges were pictured as too lenient and having permitted violators to escape punishment with fines of a few hundred dollars. Speakers also told of what they described as "amazing conditions" in many localities, where "saloons run almost openly and even a stranger has no difficulty in getting a drink."

Alleged Pittsburgh Red Lawyer Barred by Court

Pittsburgh, Pa., Sept. 15.—Judge J. D. Shaffer, in Common Pleas court here today, handed down an opinion and an order disbarring Jacob Marzolis, accused of being an anarchist, and prohibiting him from practicing law in the courts of Allegheny county.

FISHING OPENS IN PARKS.
Hundreds of persons took advantage of the opening of the fishing season in the west side parks yesterday. Some of them reported catching two pound black bass in the Garfield park lagoon. Fishing will be permitted from 7 a. m. until dark so long as the good weather lasts. No permits are necessary, but the fishing must be done from boats.

HIGHWAYMEN, STAB DENTIST; FLEE IN HIS CAR

Four highwaymen stopped the automobile of Dr. John L. Kostoski, a dentist at 1215 West Garfield boulevard, early yesterday morning at Forty-ninth and Wabash avenue, threw his chauffeur from the car, stabbed the doctor three times when he resisted, and took \$98 and jewelry worth \$500 away from him.

The robbers then drove the car to Forty-fifth and Wallace, made Kostoski get out, and escaped in the car. Dr. Kostoski walked to Forty-seventh street and notified the police.

DR. JOHN L. KOSTOSKI.

WRIGHTS RENEW FIGHT TO HOLD PATENT RIGHTS

New York, Sept. 15.—The Wright Aeronautical corporation today brought in federal district court a patent infringement suit against Handley-Page, Ltd., the Air Crafts Disposal Company, Ltd., and William H. Workman.

The action was based on patents issued in 1908 to Orville and Wilbur Wright, and which in 1919 were said to have been transferred to the Wright Aeronautical corporation.

The complaint alleges that the defendants "without license wrongfully manufactured, used, or sold airplanes embodying the inventions of the Wright brothers, the validity of patents on which was established in prior litigation."

Injunctions and an accounting of profits are sought.

Interestingly featured ahead of the season:

Women's new-vogue winter coats at a decidedly interesting price

A fortunate contract with a prominent coat maker renders it possible to offer these supervalue. The clever fashioning, high grade fabric and silk linings

are of the sort you would expect in coats costing considerably more. Models for stout women are included.

Bolivia coats, 59.50 Cashmere velour
duvette coats, and silvertone

All the coats are interlined and beautifully silk lined; the colors are those approved for fall and winter. Some of the coats have large draped collar, finished with silk stitching—others are plain tailored—all interpretative of the autumn silhouette. Sizes up to 32 bust.

Mandel Brothers

Shoe shop, fifth floor

Fortunate purchases culminate in a

sale of women's brogue oxfords

—decidedly vogue for autumn wear

with wool hosiery. The low sale prices underestimate the true worth of this modish footwear. Specimen values:

Tan Russia calf
oxford ties, 13.50

—brogue models in an attractive shade of tan; with heavy walking soles.

Tan Russia calf
oxford ties, 14.50

—brogue models in pleasing russet; extra heavy walking soles; unusual value.

Tan Russia brogue oxfords at 9.50

—with heavy wing tip and perforation; sturdy walking sole and heel. Specially priced.

Women's, misses' & children's ballet slippers, 2.45

—these of black kid; very neat, and decidedly underpriced.

Women's house slippers,
one-strap model, 3.85

Hand made and with low leather heels; very special at 3.85. Shoe shop, fifth floor.

Women's dressy spats,
"Fit Rite" model, 3.50

Overgaiters in wanted shades, with horn buttons. Shoe shop, fifth floor.

MILLER CHOICE OF G. O. P. FOR N. Y. GOVERNOR

Wadsworth Defeats Two in Senatorial Race.

New York, Sept. 15.—Delayed returns from the New York state primary held yesterday, tabulated tonight, with but 722 districts missing out of a total of 7,274 in the state, gave Nathan L. Miller of Syracuse a majority of 119,194 over State Senator George F. Thompson in the contest for the Republican gubernatorial nomination. The vote was: Miller, 246,173; Thompson, 126,978.

In the contest for the Republican nomination for United States senator, James W. Wadsworth Jr., organization designee, had a majority of 126,697 over the combined vote of his two opponents. The vote was: Wadsworth, 242,239; Mrs. Etta A. Boole, 73,961; George H. Payne, 41,041.

With returns from 1,128 districts still to be heard from, Lieut. Gov. Harry C. Walker has a majority of 58,377 over Mayor George H. Lunn of Schenectady, in the contest for the Democratic nomination for United States senator. The vote was: Walker, 105,619; Lunn, 47,142.

Hartness Victory Secure.

Montpelier, Vt., Sept. 15.—Complete returns of yesterday's state primaries gave victory to James Hartness of Springfield in the four-cornered contest for the gubernatorial nomination on the Republican ticket by a vote of nearly two to one over his nearest opponent, Congressman Porter H. Dale was renominated by the Republicans in the Second district.

The vote complete for governor was: Hartness, 22,770; Frank W. Agan, 12,859; Curtis S. Emery, 12,784; Fred H. Babbitt, 11,444.

Schuyler Leads in Colorado.

Denver, Colo., Sept. 15.—With Denver complete and 866 precincts over

MADELINE DOTY ASKS A 50-50 BREAK WITH MATE, AND GETS IT

New York, Sept. 15.—[Special.]—The married life of Madeline Z. Doty, magazine writer and reformer, and Roger N. Baldwin, sociologist, is run on a fifty-fifty basis.

"We wrote our own marriage creed," Miss Doty says. "In addition to the civil ceremony. We tried to make a plain statement of the meaning and obligations of marriage as we saw it, and now we are trying to live up to it on the partnership basis."

But how about this fifty-fifty analysis? Is the dew still on the rose when one applies a partnership plan to the bills? Evidently it is.

Miss Doty still supports herself by her writing and her home is as beautiful as a contented care can make it.

"At the present I devote four hours of my writing day to housework," Miss Doty says. "But I charge my husband 50 cents an hour for the work. My husband pays a stenographer to attend to the details of his work. So every self-supporting wife should be paid for the drudgery she does which breaks into her professional day."

the state the vote stood: Nicholson, 26,701; Schuyler, 29,113, according to returns compiled by the Rocky Mountain News. Rice W. Means was running far behind. Schuyler's lead in Denver was 5,156.

James M. Collins, Nonpartisan league candidate for the Democratic nomination for governor, maintained a growing lead over Robert Higgins, former state treasurer. Judge Tully Scott and W. R. Calliotte of Carbondale are running a close race for Democratic nomination for United States senator. Calliotte is the Nonpartisan league candidate.

INDICT FIRM AND NINE; OIL STOCK FRAUDS CHARGED

New York, Sept. 15.—Conspiracy to defraud oil stock investors of \$120,000 is charged against one corporation and nine individuals, in a federal indictment returned last August and unsealed here today.

Defendants named in the indictment are the Pennsylvania-Kentucky Oil and Gasoline Refining corporation, L. M. Stephens, J. M. DuBois, C. M. Watson, A. E. Kenney, Frank Hicks, James L. Holland, Frederick W. Rogers, Edward Gerard, and M. E. Tallman. The paper was unsealed and made public by Federal District Judge William B. Sheppard.

Specific charges say the corporation lured investors in many cities by falsely representing that the company, capitalized at \$1,000,000, owned valuable properties in West Virginia and Kentucky producing daily 1,000 barrels of oil.

STUDENTS JOIN RESERVE CORPS. BAKER APPEAL

State College, Pa., Sept. 15.—An appeal to college students of the nation to enter into advanced military training and study through the reserve officers' training corps at the various colleges and universities was voiced by Secretary of War Baker here today.

Secretary Baker declared that the greatest problem before the war department during the world war was to obtain adequately trained men to fill the commissioned ranks in the lower grades, and that the reserve officers' plan was designed to meet a similar situation in case of a future emergency.

The R. O. T. C. movement has grown steadily during the last three years, the speaker said. At the close of the 1920 academic year there were 208 senior units having an enrollment of 43,598 students, and 126 junior units with 44,777 students.

He thought the woman he loved had gone over to his enemies—that her fair hand had treacherously struck him down. You will understand why he thought so and many other mysterious things when you read this stirring tale of the great Northwest.

UP AGAINST IT

By VARICK VANARDY

Icy winds and hot blood, storm-swept mountain passes and storm-tossed souls; men who fight with hands and brains—and a real woman. Vanardy paints with a bold brush upon a broad canvas; he deals in love and adventure with fidelity to life, and this is one of his most gripping romances. A book you will want to read and recommend to your friends.

Society Brand Clothes

FOR YOUNG MEN AND MEN WHO STAY YOUNG

Style that "sticks" out
Quality that is built-in

The label is not the only place that you can see the trade-mark of good fabrics and good tailoring.

You can see it in the style of the clothes.

Society Brand Clothes are cleverly designed and their style "sticks" out, but that is only because the quality is built-in—through fine tailoring of all-wool fabrics.

The men who buy Society Brand Clothes are the real clothes critics. They are the kind of men you would pick out of any crowd on any fashionable street in America as men of good taste.

They buy Society Brand Clothes simply because they get what they want in these clothes—style, smart lines, hand-tailoring, satisfying service.

You Are Really Buying a Service

YOUR dealer will go a long way toward delivering Hosiery and Underwear satisfaction when he realizes that he is selling a service, and not a mere commodity.

Mills make Hosiery and Underwear to specifications of size, weight, quality and appearance.

You buy these goods for what they will do. What you get for what you pay is not merely a pair of hose, or a suit of underwear, but so many weeks or months of wear and comfort and satisfaction.

You are really buying a service. So that the institution back of the goods—the intent and purpose of the Maker—is vitally important to you.

What is his point of view? How does he regard his business? Is he merely creating merchandise, or a service? Is he thinking of his product as goods, or is he thinking of it in its relation to you?

Too many women get different kinds of Hosiery every time they buy.

Too many men have several kinds of Underwear on hand—a mixed lot, instead of all of a kind, and just the kind they like.

There should be somewhere the exact thing you want—the kind, the price, the wear, the comfort.

In short, somebody should be offering the service you require.

For thirty years the mills of the Allen A. Company have been giving such a service to millions of men and women everywhere.

Their famous brands of Black Cat Hosiery and Cooper's-Bennington Spring Needle Underwear may now be identified by the additional mark "Allen A."

"Allen"—the name of the owners; and "A"—the standard mark of first and finest grade.

A personal earnest of uniform quality and dependable value—the Maker's pledge of satisfaction and service to you.

Your dealer can supply you with Allen A. Black Cat Hosiery for men, women and children, in silk, lisle, wool, or cotton—full length, of lasting shape and free from imperfections.

With Allen A. Cooper's-Bennington Spring Needle Underwear for men and boys, in all weights and for all seasons.

If he hasn't them in stock, he can get them direct from the Allen A. Company mills.

Mills that build service and stores that sell service will find an ever-increasing business, a permanent repeating custom, from more people all the time.

FOOD THAT CHILDREN NEED

ECONOMY RECIPE II.

Fortune Macaroni and Cheese
Fortune Macaroni, Spaghetti or Egg Noodles can be used in this recipe.

INGREDIENTS

1/2 lb. Fortune Macaroni, broken;
1 cup cheese grated; 1 cup milk;
3 tablespoons butter or substitute;
1/2 teaspoon pepper; 2 teaspoons salt; 2 tablespoons flour.
Cook macaroni in 2 quarts boiling salted water until tender. Drain, rinse with hot water. Put layer of macaroni in greased baking dish, sprinkle thickly with grated cheese, dot with butter, sprinkle with salt, pepper and flour. Repeat. Pour over milk and bake in moderate oven 30 minutes.

FOOD VALUE

The above dish, enough for 6 servings, costs \$10. Its food value is 1250 calories. It will have 9 oz. beef of 266 calories; or 12 oz. pork of 424 calories; or 12 oz. mutton of 446 calories.

FORTUNE MACARONI

Have a heaping dish of Fortune Macaroni ready for the children when they come home to lunch from school.

Growing youngsters require this wholesome, sustaining food, rich in gluten and proteins and high in caloric value.

Fortune Macaroni contains all the elements so necessary for the upbuilding of youthful bone, blood and tissue.

An all-wheat product made from the heart portions of the most famous of macaroni wheats—durum Semolina.

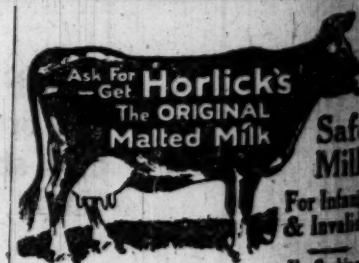

Exceptionally delicious in the many forms in which it may be served.

Your dealer carries Fortune Macaroni, Spaghetti and Egg Noodles.

Six light layers of rubber built right into these distinctive coats

Look for the name *Raynster* on the map.

The inner side of the fabric is coated with at least six thin layers of rubber, which are cured in one solid piece—proof against the hardest rain. The completed coat is so light and flexible that you'd never know there was any rubber between the outer fabric and the lining.

Rubber Surface Raynsters

—Raynsters are also made with smooth rubber surface for farmers, policemen, firemen, drivers, sportsmen and all who work or play outdoors. To make these splendid coats the highest quality rubber is "calendered" under great pressure. Back of their sturdy strength is all the painstaking care in manufacture that has made the Raynster famous.

YOUNG MEADS PLEADS GUILTY; MANSLAUGHTER

Woodville, N. H., Sept. 15.—Robert T. Meads of La Grange, Ill., Dartmouth college junior, who shot and killed Henry E. Maroney of Medford, Mass., a fellow student, after a drinking bout in a college dormitory last June, pleaded guilty to manslaughter today. He was sentenced to serve fifteen years at hard labor in the state prison.

ROBERT T. MEADS

Yesterday trial had been set for next Monday with interest keen because of the expected disclosures regarding the smuggling of whisky into Dartmouth college during the last college year. The grand jury's indictment was for murder.

Young Meads Pleads.

Young Meads was taken to the court room from the county jail in the automobile of his father, A. H. Meads of Chicago, a lawyer, to make the formal answer to the indictment this afternoon. At the direction of the court, the indictment for murder was read and Meads was asked his plea. Coolly he replied, "I plead guilty of manslaughter."

The indictment was handed to Judge John E. Allen and he passed down to the clerk his written sentence of not less than fifteen nor more than twenty years at hard labor in state prison.

Again Meads showed entire self-control, hearing the sentence without any show of feeling. He was returned to the jail. There his mother and sister awaited him.

How Maroney Was Killed.

Maroney, a senior, who had passed all his examinations and with classmates was celebrating the approaching commencement with a spree, was killed by Meads in Maroney's room.

on the college campus in the early morning of June 15. The killing of Maroney uncovered a rum running operation at Dartmouth college in which Meads was alleged to be a leader. Maroney, a senior, went to Meads' room late on the night of June 15 to obtain more whisky. There was an argument over the price during which a part of Meads' stock was taken without payment.

Police Nab Meads.

The celebrating students fled. Later when Maroney entered his own room he found Meads awaiting him and the shooting followed. Meads escaped and set out toward the tracks of the Boston and Maine railroad. He met a fellow student, and prevailed on him to accompany him. After walking several miles the young men boarded an early train, paying fares to Boston. At Franklin, Meads was arrested and returned to Hanover.

It is the investigation which followed, officials found evidence that whisky had been run into the college town by students and others for several months. They found a cache of liquor in the basement of Meads' dormitory, and learned of week-end trips by him and companions to Montreal, sometimes by train and at other times by automobile.

Meads' decision to plead guilty to manslaughter followed a conference of counsel with the presiding justice.

AMERICAN LEGION NOTES

Englewood post and its auxiliary will hold an informal house warming at 8 o'clock Saturday night at Ogden park field house, Sixty-fifth street and Racine avenue.

The fifty-fifth annual reunion of the Eighth Illinois Cavalry association will be held all day Saturday in Grand Army hall in the public library building, with a special program at 2 o'clock. Dinner will be served by Daughters of Veterans, Tent 16, in their room in the Masonic Temple.

Buck Private's society, A. E. F., Dug-out No. 1, will meet Friday night at 8 o'clock at 154 North Clark street.

Maj. Gen. Charles P. Summerall, commander of the 1st army corps in France and now in command of the 1st division, will be the principal speaker at a dinner of the Field Artillery Reserve association, a national organization made up of former field artillery officers and students at the central officers' training school at Camp Zachary Taylor, to be held in Cleveland on the evening of Sept. 25. The banquet will close a two day meeting of the association to precede the opening of the American Legion convention there.

WOMAN, SANE, IS KEPT IN ASYLUM 30 YRS., CHARGE

Topeka, Kas., Sept. 15.—A story involving a French woman, said to be of noble birth, who had been committed to the Kansas state asylum for the insane in order that others might obtain control of a New Mexico mining property reached Gov. Allen today. The story was told in a letter from Arthur E. Stevens, an attorney in the treasury department at Washington, and has to do with Mrs. Rubye de May, a French woman who has been a patient in the state hospital the last thirty years. Gov. Allen ordered an investigation of her case.

According to the letter, Mrs. de May, who owned mining property at Deming, N. M., was held a prisoner by a quarterbreed Indian on a farm near Winfield, Kas., her 3 year old daughter was taken from her and the child was brought up in ignorance of the mother's existence. Mrs. de May, represented by her captors to be insane, was finally committed to the state asylum, the letter said.

Keech 'War' Begins Anew; Millionaire's Wife Sues

The matrimonial difficulties of William M. Keech, young Chicago millionaire, took a new turn yesterday when Mrs. Zola Caroline Moulton Keech, a former actress, filed suit for separate maintenance at Los Angeles. The suit was an unexpected sequel to a court fight begun here by Keech in 1914 to obtain a divorce. Charges and counter charges, suits and counter suits followed. Then there was a two year truce, now broken.

Exide BATTERIES

When the Great Bridge Moves

At a touch of the hand the great cantilever lifts or the drawbridge swings so your ship may pass. The hand moves a switch, and the current from an Exide Battery sets in motion the motor that does the work. So also in railway signals, the Exide Battery says the word that speeds your train in safety.

From lighting farms and

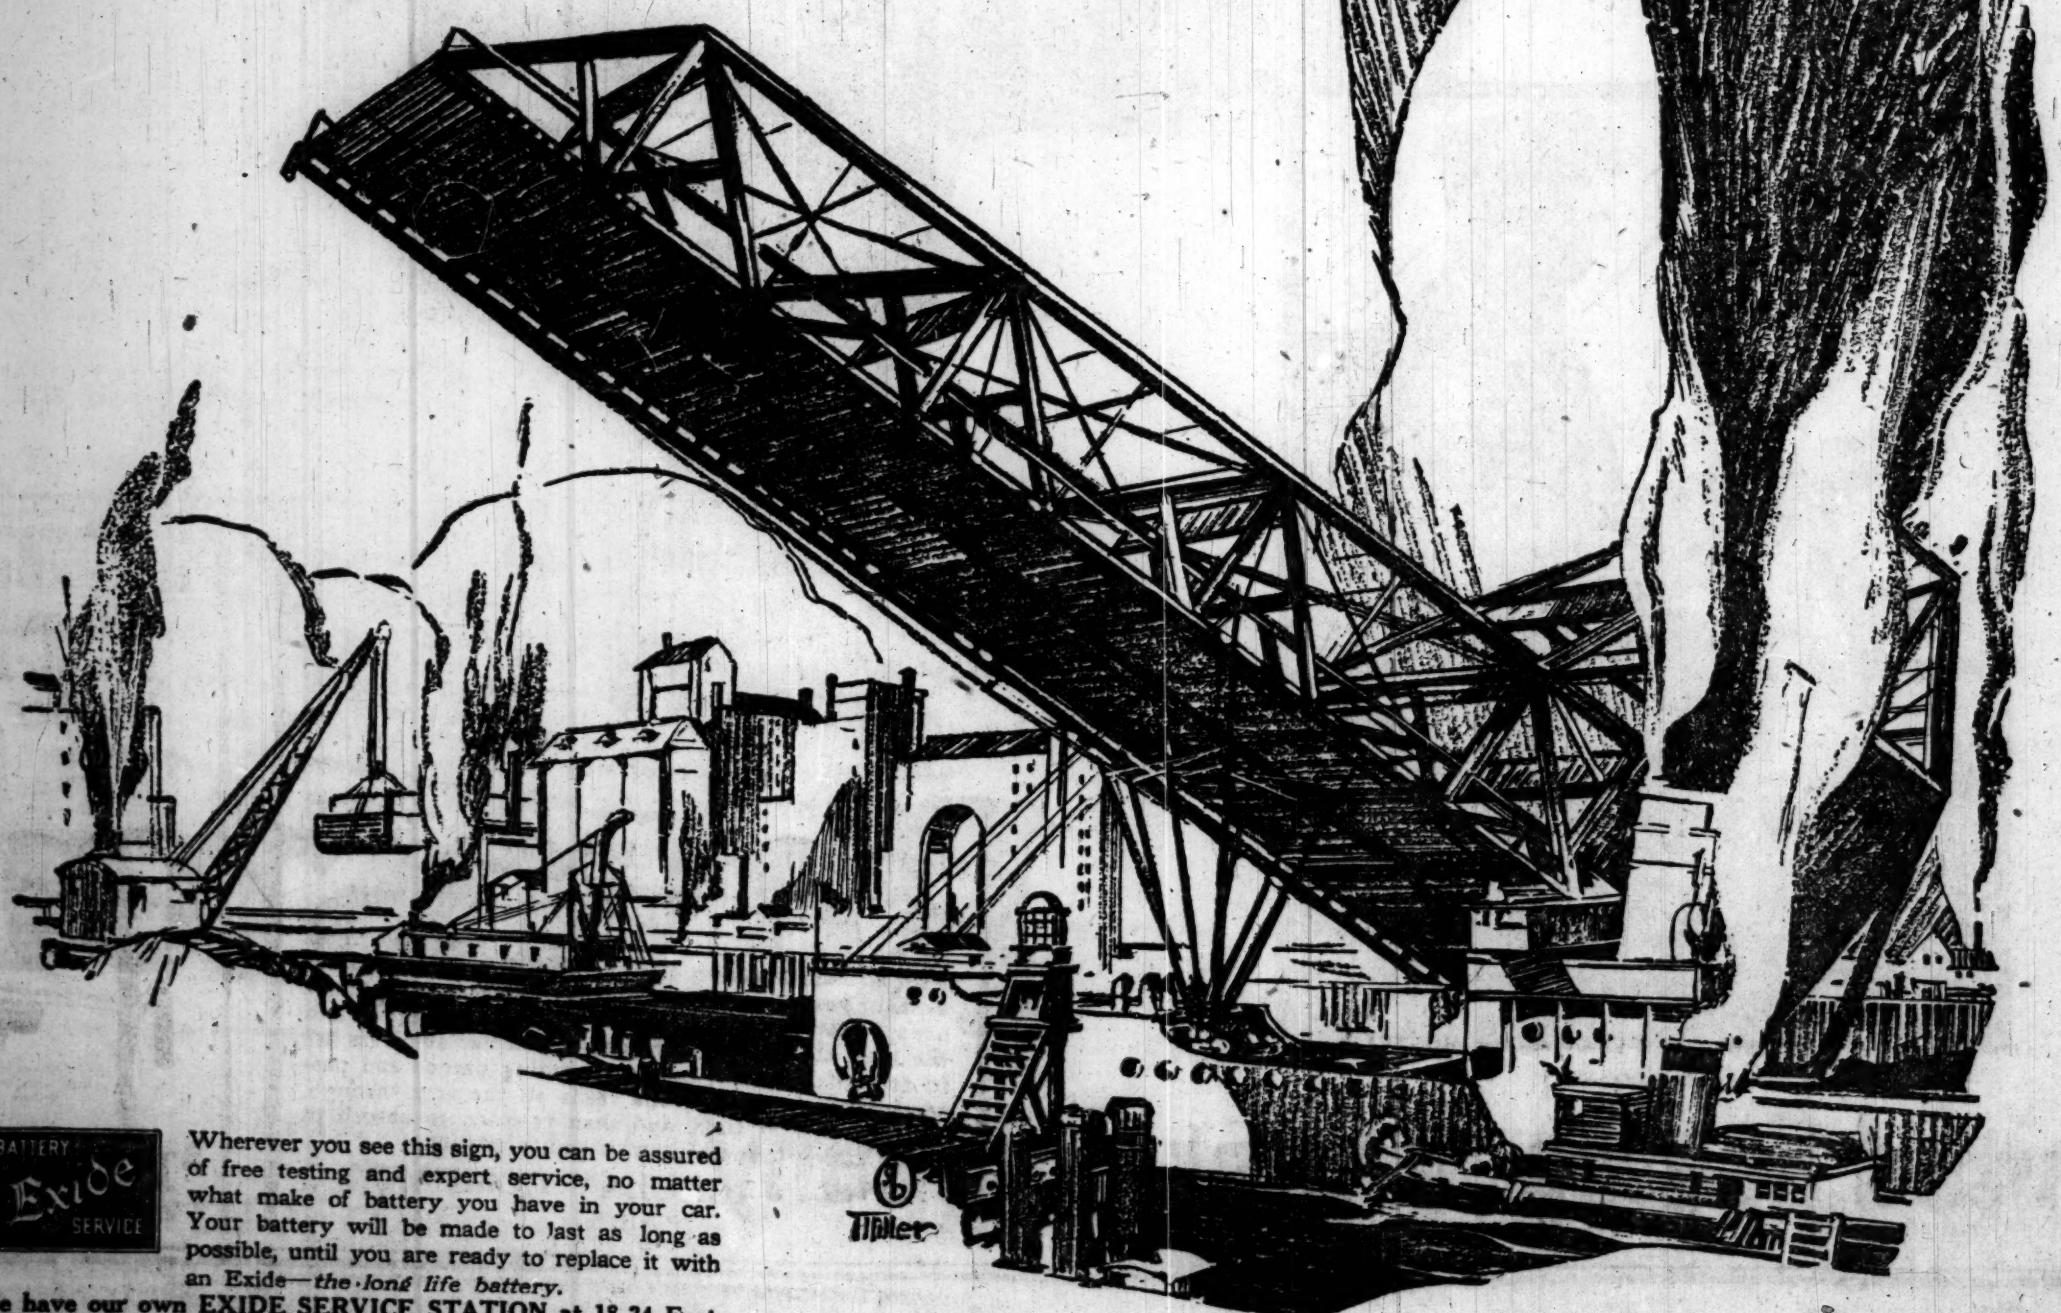

starting automobiles to propelling submarines and firing our big naval guns, Exide Batteries play their vital and unfailing part in peace and war.

There is an Exide Battery made for every purpose, and into each Exide is built the experience of the oldest and largest manufacturers of storage batteries in the world.

MILLER POSED AS AUTO BROKER, GIRL ASSERTS

Jury Told Man Slain at Leland Was Bandit.

into the mystery surrounding the death Tuesday morning of George L. Miller, Chicago business man, at Leland, Ill., simultaneously with a bandit raid on the town, a new element entered yesterday. This was Stella Broughton, sweetheart of Miller.

Miss Broughton is prostrated in Madras, Ore., where she went from Chicago a few months ago. She new Miller for a number of years as a prosperous automobile broker, who weekly invested thousands of dollars in automobile consignments, and who always carried large rolls of \$100, \$1,000, and \$5,000 bills.

"I can't believe he was a robber," she sobbed yesterday while a Tribune correspondent was interviewing her. "I went with him constantly for over six months. He never mentioned anything of the kind, and I believe I would have known it if he had been crooked."

Posed as Poultry Buyer. But while Miller was posing to Miss Broughton as an automobile broker, he was known to his landlady and friends in the neighborhood of 17 Lincoln street, his home, as a poultry buyer.

At the coroner's inquest held at Leland yesterday an open verdict was returned. Testimony was to the effect that Miller had been a member of the bandit gang which had stormed Leland after an unsuccessful attempt to rob a bank at Franklin Grove, Ill., the previous evening.

Call Him Gang's "Brother." Miller, the police theorize, was the "lookout" for the gang when they attempted to rob the implement store behind which his body was found. The Leland police have come to the conclusion that Miller was shot by members of the gang who mistook him for the night village marshal.

Meanwhile Chicago police began an investigation into Miller's life. It is believed that if Miller was a bandit, through his death the other members of the gang may be captured.

GROVER, 60, AND WIFE, ROBBED 3 TIMES, FOIL FOURTH RAID, TRAP 2

A. Saul's grocery store at 2701 West Thirty-eighth street had been robbed three times in a year and he was getting tired of it. He told neighbors to watch him whenever they saw suspicious persons loitering about the store.

At 3 o'clock yesterday morning a neighbor informed him that his home, 2736 West Thirty-eighth street, that his store had been broken into again. Saul dressed hurriedly and ran to the store, followed by his wife. On the way he noticed two or three young men standing near the corner, evidently lookouts. He rushed into the dark store and seized a man. Mrs. Saul grappled with a second intruder.

Saul is 60 years old and his wife 57. They battled with their prisoners all the way to the sidewalk. Two shots were fired and Saul was struck over the head with an automatic pistol, but both he and his wife managed to hold on until the police arrived. At the Brighton Park station the prisoners gave their names as Mike Rogers and James Dunn.

bers of the gang who mistook him for the night village marshal. Meanwhile Chicago police began an investigation into Miller's life. It is believed that if Miller was a bandit, through his death the other members of the gang may be captured.

Posed as Poultry Buyer. But while Miller was posing to Miss Broughton as an automobile broker, he was known to his landlady and friends in the neighborhood of 17 Lincoln street, his home, as a poultry buyer.

At the coroner's inquest held at Leland yesterday an open verdict was returned. Testimony was to the effect that Miller had been a member of the bandit gang which had stormed Leland after an unsuccessful attempt to rob a bank at Franklin Grove, Ill., the previous evening.

Meanwhile Chicago police began an investigation into Miller's life. It is believed that if Miller was a bandit, through his death the other members of the gang may be captured.

HE'S TOO BUSY SAVING GIRL TO KNOW HE'S SHOT

Autoist Drives 3 Blocks After Bandit Battle.

Because of his anxiety to restore to consciousness Miss Mildred Foster, 2581 Arzyle street, when she fainted last night during an encounter with three highwaymen, Murrell Clemmer of 2130 Giddings avenue drove his automobile three blocks before he discovered that he was probably fatally wounded.

The men stepped out of some bushes at Winnemac and Talmage avenues just as Clemmer, who had Miss Foster as a passenger, was about to turn the corner. "Get out of the car!" yelled one, firing a shot.

Give Battle to Bandit. "I'll get out, all right," responded Clemmer, leaping at the man. They grappled and the stranger fired three more shots. Then he broke away and fled. Clemmer hopped into his car and saw that Miss Foster had fainted. Stepping on the gas, he went in search of a drug store.

He picked up a pedestrian to direct him and had reached the store when Miss Foster regained consciousness.

Find Out He's Shot. "What is that on your shirt?" she asked, pointing to a spot. "Gosh!" he said. "It's blood. I must be shot."

The stranger took the wheel and sped to the Swedish Covenant hospital, where Clemmer was found to be severely wounded. The police of the Summerdale station went in search of the robbers.

FIVE MEN WOULD UP GAVE OWNER. Five men entered the cafe of Louis Reints, 2101 S. Western avenue, yesterday morning, covered him with revolvers, and forced him into a rear room, where they bound and gagged him.

Dismiss Ryerson Suit for \$500,000 Income Tax

Federal Judge George T. Page yesterday dismissed the suit for \$500,000 income taxes filed against the government by the estate of Arthur Ryerson, a victim of the Titanic disaster. Return of the money has been asked on the ground the tax law was unconstitutional.

Man in Policeman's Garb Leads Boozie Bandit Raid

Two gangs of liquor bandits, one led by a man wearing a policeman's uniform, escaped yesterday with whiskey and wine valued at \$37,000. Five men raided a warehouse at 2623 North Clark street, stealing 120 cases of whiskey, and three others got sixty cases at the Brand Brewing company, 2530 Elston avenue.

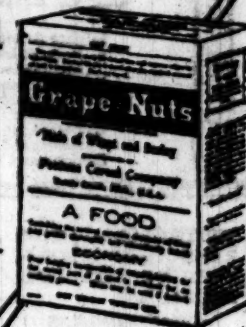

With sugar scarce and costly, more and more interest is naturally being shown in that self-sweetened food—

Grape-Nuts

This ready-to-eat cereal food is abundantly supplied with sugar, developed in the process of making from the choicest parts of wheat and malted barley.

MARSHALL FIELD & COMPANY

Exceptional Selling of Women's Fine Silk Gloves

\$1.35 the Pair

Embracing Thousands of Pairs in the Most Preferred Styles and Colors

THOSE who wear Silk Gloves will find among these excellent values the most advanced styles. So unusual are they, that it would pay to buy for next season as well as to satisfy present needs.

Never before, even before the war, have we sold Gloves of this character so reasonably, and it is unlikely that this price will soon be duplicated.

There are novelty slip-on with tab fastener and gauntlet styles, attractively embroidered, and sixteen button lengths with embroidered backs. Every pair is perfect, double finger tipped and of fine wearing quality. Colors and color combinations include white, black, beaver, gray, mode and pongee.

Additional space and salespeople make it possible for us to maintain our standard of service during this unusual selling. First Floor, South Side.

An Opportunity to Learn Many Useful Things

In Household Utilities

THIS week is the last of the Exhibition of Manufactures, in which home-makers are learning how Brushes, Brooms, Refrigerators, Washing Machines, Paints, Aluminum Ware, Iron Ware and Electric Percolators, Warming Pads, and Irons are made. Many of these displays are "active"—for instance, brooms are actually being made in the Section (and sold at special prices), and so are brushes and irons.

New Demonstrations

"The Girl in the Cap and Apron" is giving a new series of demonstrated talks on Cooking. Every Monday, Wednesday and Friday from now until Christmas, one will be given at 2 P. M. Tomorrow, "Corn Meal Mush."

Second at 11th Street, Ninth Floor.

Not Usual These Days to Reduce Mirrors—Yet—

100 Sample Mirrors Reduced

PLATE glass of a grade suitable for Mirrors continues scarce and high in price, and the increasing regard for the Mirror as a decorative feature keeps the demand steady and continued.

Many decorators find that the usual city room gains greatly from a judicious use of Mirrors, so placed as to create vistas where none actually exist.

The Floor Samples mentioned as reduced are widely varied as to styles, decorations, sizes, shapes—it may well be that just the Mirror you are looking for is brought, by this event, to a price you can easily pay.

In every case reduction is considerable. Prices range from \$7 to \$400.

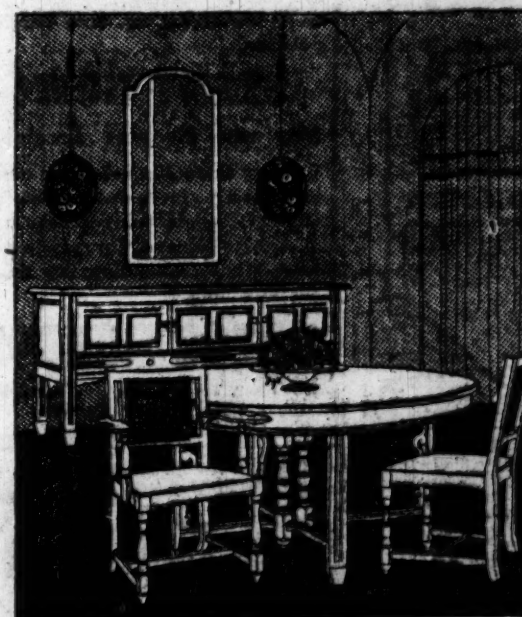

Eighth Floor.

Italian Dignity in Comfortable Furniture

Any Dining Room Would Seem Homelike With This Suite

THE notable simplicity, the formal stateliness of the Italian school, and the comfort that is demanded by modern American homes are both found in this Suite, a remarkable adaptation from the shops of Berkeley and Gay.

Its straight lines exact a tribute to formality that fits well in the dining room—but the dark finish of the oak, the rounding of corners which would otherwise be harsh and forbidding, give the pieces their air of liveliness and of suitability to present-day conditions.

There is an extension Table, 54-in., with 8-foot extension and two apron leaves; \$215. The Server, \$105. The Sideboard, 72 inches long, is \$250. Cabinet, \$225. Armchair, with cane back, \$48. Side Chair, \$40.

Eighth Floor.

IS INNOCENCE A SURE SHIELD TO VIRTUE?

Can a young girl, who knows nothing of the ways of the world, and particularly the ways of men of the world, find safety in the utter seclusion of her own mind from a knowledge of evil?

You will find an answer to

The Eyes of Innocence

By MAURICE LEBLANC

The scene is laid in provincial France, portrayed with almost Balaesque quaintness and fidelity—and the woman, young and beautiful, of course, is completely unsophisticated. The rude shock of early tragedy and the later clash of brutal passions in her admirers are in dramatic contrast to the pervading pathos and pastoral setting. A book one reads all the way through, hardly the first time, and then re-reads to absorb in detail its revelation of human nature as it is.

"The 'STUYVESANT' Design 1802—in Twin Pair

© 1920, Simmons Company

Why not twin beds in your guest rooms also

THE woman who provides her town room with Simmons Twin Beds can hardly offer less modern beds to her guests.

Just so soon as she begins to judge a bed by its sleeping quality, she comes inevitably to Simmons Metal Beds—Built for Sleep. Firm, sturdy, noiseless; free from rattle and squeak—inviting complete relaxation and deep, sound sleep.

She sees in Simmons Twin Beds the finest development of the sleep principle. One sleeper does not disturb the other, or communicate colds and other infections.

She finds, too, that these new Simmons designs furnish her bedrooms even more exquisitely

than the beds she is discarding to make place for them.

THE "STUYVESANT" Design 1802—in Twin Pair

A fine modern treatment of the sturdy Dutch Colonial architecture which has given America so many of its most charming homes. Decorations in relief—Simmons new square Steel Tubing; seamless, smooth, beautifully enameled in the accepted decorative colors—Simmons patented pressed steel noiseless Corner Locks. Easy rolling casters—Your choice of Twin Pair and Double Width. Especially pleasing in Twin Pair.

If your dealer does not show you the Simmons line, you need only write to us. We will see that they are shown to you.

Free Booklets on Sleep!—Write us for "What Leading Medical Journals and Health Magazines Say about Separate Beds and Sound Sleep" and "Yours for a Perfect Night's Rest."

An Extraordinary Sale of Boys' New Suits

Every Suit Has Two Pairs of Knickerbockers

Here are three groups of boys' suits, each bringing values of a kind that has not been noted in months. Inspection will show immediately how extraordinary are these values, and the three groups include suits for school wear and for dress wear.

These suits are well tailored for real service, in the styles boys like. The dependable all-wool mixtures and corduroy fabrics are in weights for wear during the fall and winter—the patterns present a wide choice. There are hundreds of suits in each group, in 8 to 18-year sizes.

500 Suits at \$15.75 500 Suits at \$19.75 500 Suits at \$24.75

These worth-while savings are certain to occasion active selling, we believe. Consequently, early choice is advised.

Of All Rugs That Come Out of Persia, None Are Better Adapted For American Homes Than These

Sarouk Rugs From Sultanabad Here In Unusual Collections

They are woven in the country and small villages of the Sultanabad district of Central Persia. The fine Persian wools, thoroughly scoured, used in the making of these rugs give them a wonderfully silky appearance. The warp as well as the tying thread is hard-twisted cotton yarn, making the rugs well suited to rooms subjected to severe use. Colors for the most part are rich dark red, royal blue, and natural camel's hair brown.

Patterns are nearly all medallion effects, with corners in irregular forms in contrasting colors, with all-over small interlacing foliage designs in spaces between. A rather bold border, always color contrasted with the center, finishes this wonderful rug.

Importations in recent times have been very difficult, but we are in the position to announce to our customers a most varied collection of these Sarouk rugs of all sizes.

Assembled for a Special Selling in the September Sales

Four bales of Sarouk mats, averaging in size about 1 ft. 8 ins. x 2 ft. 3 ins., Special at \$55 Each

Small size Sarouk rugs averaging about 3 ft. x 5 ft.
Lot No. 1 at \$145 Each
Lot No. 2 at \$195 Each

Larger size Sarouk rugs, averaging about 4 ft. x 7 ft.
Lot No. 1 at \$325 Each
Lot No. 2 at \$400 Each

A partial list of extra large room-sizes in these rich and handsome Sarouk rugs, from the finest collection we have ever shown, and all very specially priced, follows below:

Stock	Size	Price	Stock	Size	Price
3529	8 ft. 11 ins. x 12 ft. 2 ins.	\$1,400	3304	9 ft. x 12 ft. 3 ins.	\$1,400

DESCHANEL GIVES RESIGNATION TO FRENCH PREMIER

Rumor of Royalist Coup
Heard in Paris.

BY HENRY WALES.

[Chicago Tribune Foreign News Service.]
[Copyright: 1920: By The Chicago Tribune.]
PARIS, Sept. 15.—President Paul Deschanel has resigned. Premier Millerand, now at Aix les Bains, already in possession of the written document and he will return to Paris Friday. The cabinet will assemble immediately after the premier's arrival to discuss the resignation and to consider his successor.

This news reached Paris tonight containing earlier dispatches which stated that President Deschanel, realizing that his conditions of health were hopeless so far as assuming the duties of his office was concerned, had decided to resign.

France at Standstill.
In the meantime official France is at a standstill. No decrees, laws, or agreements can be put into effect and, for example, the recently adopted Franco-Belgian treaty is held in abeyance.

Premier Millerand is said to be anxious that an election is not held until the peace problem has been discussed and to be jockeying for a opportune moment for presentation to the cabinet of M. Deschanel's resignation. If an election is held, it is likely that the bourgeoisie will elect a monarchist candidate.

Monarchist Coup Hinted.
Much activity among the extreme right of the French cabinet, which included the urgent summing up to Paris of each member today, has given rise to speculation of a possible monarchist coup.

These rumors are to the point that the extreme right, which showed a substantial gain in the last election, seeks to use the election as a stepping stone in an attempt to change the regime with Raoul Peret as president in a chamber is elected and a coup for restoration of the Duke d'Orleans is expected. It is believed the military hierarchy would solidly support the coup and their desire to maintain a strong army against the German menace.

RESIGNATION VOLUNTARY.
PARIS, Sept. 15.—[By The Associated Press.]—The tragedy of Deschanel, which for nearly four months has been the secret of a fast-paced man who has become public property, and nothing but the warmest sympathy is being expressed on all sides for the president of the republic, as it is announced that he has decided to resign.

President Deschanel's four months' fight since his accident at Montargis May 23, when he fell from a moving train, has been a losing one, and the hope for his early recovery now has been abandoned.

Before another week has passed, it may now safely be said, Deschanel will be retired to private life. There is no immediate danger of President Deschanel dying, it is said, but there is no possibility of his resuming the duties of his post.

Decides to Quit Post.
The initiative for the resignation came from M. Deschanel himself. Several times since his accident he has informed Premier Millerand, and the Premier Millerand, the contents of the report have not been made known, but it concluded that the president probably would be incapacitated for several months.

Deschanel then offered his resignation to M. Millerand, who refused it, declaring that M. Deschanel could remain in office until the end of October. "As an scrupulous observer of the law which for so many years I assisted in making, I am determined to relinquish my presidential duties," M. Deschanel is quoted as having said to the premier.

A French newspaper correspondent tonight called upon former Premier Clemenceau and asked "The Tiger" whether he would permit his name to be used as a candidate for the presidency.

"I was too old to be elected last January," replied M. Clemenceau, "and I feel too young to accept now, in case I were chosen. I am going into India to hunt tigers, which is much less dangerous than French politics."

Caillaux, Shy of Civil Rights, Given Rebuff

[Chicago Tribune New York Times Cable.]
[Copyright: 1920.]
PARIS, Sept. 15.—Ex-Premier Caillaux has just experienced the disadvantages of having been deprived of his civil rights as provided in the sentence passed on him for his crimes during the war.

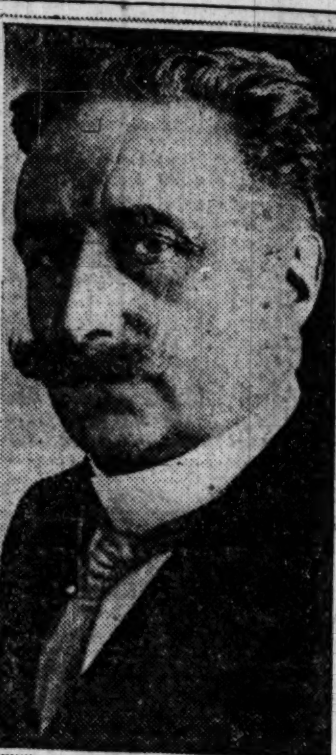

Some days ago he decided he would like to hunt partridges on his country estate. He filed in a form asking for a gun license.

The local police officials found that deprivation of civil rights included prohibition to carry arms and the ex-premier had to forego the contemplation of hunting.

AUSTRIA ALLOWED TO SPEND.
VIENNA, Sept. 15.—Consent for Austria to spend without restriction the recent credit of \$5,000,000 pesos given her by Argentina has been accorded by the international reparations commission.

A LOSING FIGHT

Paul Deschanel, President of France, Realizing He Cannot Regain His Health, Resigns.

President Paul Deschanel.

M'SWINEY CRIES IN DELIRIUM AS PAIN INCREASES

Decidedly Worse, Says Wife.

BY JOHN STEELE.

[Chicago Tribune Foreign News Service.]
[Copyright: 1920: By The Chicago Tribune.]

LONDON, Sept. 15.—Mrs. Terence MacSwiney tonight after leaving her husband in Brixton prison, who is on his thirty-fourth day of hunger striking, said he was decidedly worse. For the first time she noticed his eyes looked very dull. He is suffering much pain in the head and body.

For the first time he has been delirious. During the night he talked wildly to his sister Annie, who was at his bedside. Imagining himself at the head of the Sinn Fein army, he issued orders in his delirium that brought him the fear when he regained his normal mind that he might have exposed some Sinn Fein secrets. He asked his family, should there be a recurrence of this, to gag him by force.

Evidence that the fate of the lord mayor has attracted attention throughout the world is shown in the receipt of hundreds of letters every day by the lady mayoress. Communications from persons of all ranks in society, from all nations, and a majority of them couched in highly sympathetic tones, have poured in. Many of them urge Lady MacSwiney to advise her husband to break his strike.

ULSTER MOVE ROUSES STORM

[United News Staff Correspondent.]
LONDON, Sept. 15.—No action of the Lloyd George government in the Irish crisis has so aroused the different factions as has the creation of an undersecretary for Ulster and the proposal to arm "well disposed" citizens of that part of Ireland for the purpose of maintaining law and order.

Received by one side of the press in silence, it has been subjected to a bitter fire on the part of the Liberals, who have attacked the proposal with a viciousness seldom seen in any political battle.

"It is the result of Sir Edward Carson's influence," says the Daily News, "and it raises a grave question as to the very sanity of the government."

"It is a monstrous proposal," declares the Westminster Gazette. "Sinn Fein raiding an empty police barracks at Ballinacorney, County Roscommon, were interrupted by a strong force of soldiers. Two riders were shot dead and a third mortally wounded."

Reds at Genoa.

BULLETIN.

ROME, Sept. 15.—[By The Associated Press.]—Premier Giolitti has intervened in the metal workers' dispute and has invited representatives of the employers and workers to meet him at Turin. Several delegates have already arrived there in response to the invitation.

BY HENRY WALES.

[Copyright: 1920: By The Chicago Tribune.]
[Copyright: 1920: By The Chicago Tribune.]

Peasants and members of the former combatants' league seized a big farm owned by a prominent official of the Catholic church near Albano. It is expected the vatican will protest to the Italian government and demand protection of its property.

Under the leadership of a delegate from the labor confederation other former combatant peasants grabbed a 400 acre farm owned by the aero propagation congregation of the Catholic church near Nonentana.

Prince Torlonia's large property near Castle Gandolfo was seized by peasant veterans.

Force Factory to Communize.
The bolsheviks at Verona have forced the contented employees of a shoe factory there to communize their plant, and a labor deputy has driven the factory owner, his wife, and five children from the premises at the point of a pistol. It is learned from Italian sources.

Satisfied with the treatment of them, the employees of Rossi's factory continued working. Striking street car employees, who, unable to communize the Verona lines, lacking electricity, led by Deputy Scardello, broke into Rossi's living quarters adjoining the factory, and drew revolvers. The bolsheviks then drove out the employees from the factory and closed down the plant.

Three of the most important cotton factories at Iggiano, Butozicchio, and Gallipate have been seized by the workers, paralyzing the industry. The Socialist-Labor conference will vote tomorrow on recognition of the operatives' claims for control of the industry.

The employees met and objected to the proposed plan, finally closing in a deadlock.

Warships at Genoa.
The French foreign office learned today that an Italian squadron, including battleships and destroyers, has arrived at Genoa, where communists had seized merchant shipping in the harbor, hoisting red flags and mounting cannon, and announced they would bombard the Italian navy if warships were sent there.

Tension is increasing in Genoa following the arrest of fomenters who are chiefly Russian or Hungarian, all of whom were in possession of large amounts of money.

Workers have seized the linen mills at Biola upon the pretext that the proprietors were shipping in raw materials. The whole linen industry threatens a lockout as the result of this.

EXPECT PEACE OFFER

[Chicago Tribune Foreign News Service.]
TURIN, Sept. 15.—The workers are tightening their grip on the economic situation here. Censorship of all out-bound telegrams and telephone messages has been established. The communists took control of the electric power plant when its directors attempted shutting off power from communized factories, but this move was frustrated when electric workers threatened to seize and operate all power plants unless the factories received electricity and the directors capitulated.

At tomorrow's conference in Milan between the employers and the metal workers peace overtures by employers are expected. This will possibly take form of an equal control, profit sharing scheme.

Hundreds of workers carrying red flags followed the funeral today of two Red guards killed last Saturday night near the factory of Francesco Benegutti, who is on trial for murder.

The communists at present work for food can only, receiving no money. These cards provide meat, bread, potatoes, and other vegetables.

YOU'LL HAVE TO HAND IT TO THE WIFE

WRANGEL SHIFT WINS 4 VICTORIES OVER LENINITES

Looks to Unity with Ukraine.

[Copyright: 1920: By The Chicago Tribune.]
CONSTANTINOPLE, Sept. 15.—Gen. Baron Peter Wrangel is carrying out a complete reversal of his former plans, which were to concentrate on the Kuban and to form a liaison with the revolting Cossacks, according to Gen. Leaskumsky, who is attached to the Russian military mission in Constantinople.

This explains the evacuation of the four secondary fronts which was completed a few days ago as follows: From the Sotchi region, from the line between Anapa and Rasevskaya in the region of Ekaterinodar, from Alexandrovsk-Grushevskol on the railroad forty miles south of Rostov, and from the line between Akhtiar on the Azov coast 100 miles south of Rostov and Bryukhovetskaya, about thirty miles inland.

Reasons for Change.
The reasons for Gen. Wrangel's change of policy, according to the Russian military mission are: First, Gen. Wrangel is assured of a continuation of revolts among the Kuban Cossacks which will force the bolsheviks to concentrate a number of their effective forces in that region to subdue the hostile Cossacks who will continue guerrilla warfare; second, the difficulty of maintaining four secondary fronts which are a constant drain on his armed forces; third and most important, unity with the Ukrainians in agreement with an anti-revolutionary front.

Wrangel's objective now is to reach the large cities of Kherson and Nikoliev in the provinces of Kherson, where he will commence a junction with the Ukrainians.

Wins Victories Over Reds.
His new arrangements already have resulted in victories over the bolsheviks on the Don, where Gen. Nazarov has cut the railway from Voronezh to Tsaritsyn; at Makhov, where the 34th division of the bolsheviks surrendered to the insurgents, and near the Korosunka monastery, where two lighters containing Red troops were captured.

Gen. Wrangel's forces have repulsed bolshevik attacks near Verkhne-Tomak at the village of Velikhel-Chargau. A soviet army order issued in Kuban states:

"We have made 100 prisoners, which, after being interrogated, will be shot." This contradicts the bolshevik assurance given the allies by Moscow that prisoners of war no longer will be tortured and shot.

BEG YOUR PARDON!

An item dated Madison, Wis., Sept. 13, referred to that town as the home town of G. G. Barnard, the sculptor, and said he had presented casts of eighteen of his works to the city. The date line should have been Madison, Ind.

MAJ. FAUNTLEROY DECORATED FOR POLAND BRAVERY

WARSAW, Sept. 14.—Marshal Pilsudski today decorated Maj. Cedric Fauntleroy of Chicago, commander of the Kosciuszko squadron, with the order of the Military Virtue, the highest decoration in Poland.

Rozwadowski, chief of staff for Stanislaw Haller, who distinguished himself in the Kiev campaign, was decorated at the same time. The ceremony was held in the presence of the general staff, an infantry battalion, a band, and a crowd, including all Americans in Warsaw.

Maj. Fauntleroy not only distinguished himself by personal courage in action, but also was given command of all aviation on the southern Polish front.

SAILOR, SAID TO
BE LEROY, HELD
IN MONTEVIDEO

MONTEVIDEO, Sept. 15.—Morris Fox, who recently was arrested aboard the British freighter Dryden because of his resemblance to Eugene Le Roy, alleged to be the perpetrator of the Detroit and New York "trunk murder," was detained for identification today by the Uruguayan police when the Dryden arrived from Rio Janeiro. The action was at the request of the United States authorities.

Fox was arrested on Aug. 25 last when the Dryden arrived at Rio Janeiro, but in the absence of an extradition treaty between the United States and Brazil he was detained on board the vessel until it proceeded to this port.

The police here, who possess only an inadequate description of Le Roy furnished by the American legation, are said to be skeptical that Fox is the man wanted.

POLISH ENVOYS START FOR RIGA PEACE MEETING

Lithuanians and Poles
in New Battle.

[Chicago Tribune Foreign News Service.]
[Copyright: 1920: By The Chicago Tribune.]
PARIS, Sept. 15.—According to a report which reached the French foreign office today a Polish delegation numbering forty has started for Danzig, where they will proceed to Riga on board a British destroyer for a peace conference with the bolshevik envoys.

The Polish-Lithuanian frontier pour parties scheduled to commence today at Kalvaryja were delayed owing to the Poles' advance into territory beyond the Curzon line. The Kovno government has advised Warsaw to halt the advance and begin negotiations.

HOSTILITIES RENEWED.
WARSAW, Sept. 15.—[By The Associated Press.]—The Lithuanians and the Poles are again engaged in hostilities. It is announced in tonight's Polish official statement. Fighting has been resumed between the two forces along the Suwalki sector, near the German border.

The statement also announces that Kovil, in Volhynia, has been occupied by the Poles, who took 3,000 prisoners, captured thirty-six guns and a large quantity of war materials.

CONFIRM REPORT
OF RED MUTINY
IN RUSS HARBOR

[Chicago Tribune Foreign News Service.]
PARIS, Sept. 15.—Confirmation of information obtained several days ago regarding anti-soviet demonstrations in Petrograd was received from Copenhagen today by the foreign office. It is announced that bolshevik crews of several Red warships "mutinied" and threatened to bombard the city, and a number of attempts were made by dissatisfied bolsheviks to assassinate commissars at Petrograd. The Red guards ordered out machine gun corps which were posted at points commanding the principal streets and squares.

Czecho-Slovakia Cabinet
to Be Led by Jan Cerny

PRAGUE, Czecho-Slovakia, Sept. 15.—Jan Cerny, chief executive of Moravia, is expected to assume charge of the ministry of the interior and the presidency of the new cabinet. The old cabinet was in session today to carry out the formalities of resignation.

The Inquiring Reporter

Every Day He Asks Five Persons, Picked at Random, a Question.

The Question.
What breed of dogs do you prefer, and why?

Where Asked.
Adams and Clark streets.

The Answer.
Ethel Linn, 6536 Greenwood avenue, clerk—I like Irish setters the best. They are a fine breed. They are smart appearing and they make the finest watchdogs. One could not have a truer friend than a setter.

W. F. Herman, 924 Belmont avenue, cigar clerk—I believe I would prefer a Scotch collie. It is the most reliable dog a man could have. Other kinds of dogs will turn on a man at the first opportunity, but a Scotch collie will protect its master, sometimes even at the cost of its life.

Emily Richter, 1314 Granville avenue, stenographer—I like a Russian wolfhound the best. It is everything a real dog should be. I think it is the prettiest animal there is and a braver breed cannot be found. The wolfhound's looks alone add class and distinction to its owner.

Joseph L. Fred, 2038 Howe street, salesman—I prefer a Belgian Red Cross dog. The Belgian dogs are noted for an intelligence at times even superior to men's. They are also very clever and, I believe, worth their weight in gold. One Belgian war dog is worth ten of any other breed.

Mae Lyons, 2018 North Clark street, cashier—I had no preference until last Sunday, when, strolling through the zoo at Lincoln park, I chanced to see some of the Eskimo puppies that have recently arrived there. Now I am just dying to own one. I think they are so cute.

NATURE SMILES ON HOMELESS OF SHAKEN ITALY

Mountain Towns in Ruins,
but Crops Abound.

BY GEORGE SELDES.

[Chicago Tribune Foreign News Service.]
[Copyright: 1920: By The Chicago Tribune.]
FISA, Sept. 15.—Although they literally had obeyed the biblical injunction and built their homes upon rocks, 20,000 men, women, and children, inhabitants of Fivizzano, Colle Mandina, and a score of other small towns in northern Italy, are living today in the open because their mountain top hamlets were hardest hit by the earthquake.

Strangely, while the mountains and foothills still tremble occasionally, the sandy places in the valleys are entirely free from scenes of violence either to home or to man.

Relief Work Under Way.
Today I motored through the stricken district, passing thousands of refugees herds of straying sheep and goats; soldiers, firemen, and Red Cross units, the latter on their way to relief work. Relieving the distress in northern Italy is going to be slow, hard work, for, in almost every instance, it will be necessary for the workers to climb steep mountains to reach the sufferers.

Usually villages partly destroyed by the great temblor advertise themselves by their toppled church steeples because, occupying the topmost heights they felt the full shock of the quake, and these broken spires can be seen from afar.

Nature Smiles on Scene.
Once outside Lucca, as one takes the road ascending the hills, one gets a magnificent panorama of slopes laden with ripening grapes, fruit trees, and tiled land framed by snow capped peaks, capped by small clusters of houses. Occasionally, too, one gets glimpses of the green river in the valley.

Soon, however, the beauty of this Italian landscape beneath its far famed blue sky is forgotten, for the homeless fill the roads with scenes of misery and despair.

Frequently strange contrasts are presented. I met one Italian housewife who was unmistakably happy. United States Army Tents as Homes. There she was humming happily to herself as she deftly arranged the few saved remnants of her home within a small American army tent, one of which already have reached the earthquake zone.

I asked this woman how she fared. "We've lost our home and all our belongings, except the things I wear," she replied, indicating several bundles of clothing. "But God is good. Our vineyard will yield many grapes this year, and besides we have a son in America who will send help soon. Those who have not lost their little ones or other relatives should be very thankful."

Rows of Unburied Dead.
The towns of Fivizzano and Colle Mandina were hardest hit. In these villages scores of the dead inhabitants were to be seen lying in rows covered with sheets by the roadside near the cemeteries awaiting burial. These rows were slowly lengthening as additional victims are borne in hourly by their bereaved relatives or friends.

In many respects these shattered hamlets resemble those of the distance. In the town of Colle Mandina, for example, the counterpart of the Vaux, near Chateau Thierry, of two years ago after American artillery had struck every house in the town prior to the United States infantry attack which constituted the first all-American victory.

Turns Town to Junk Shop.
As was the case in France, in these Italian villages the treasures of a hundred families are mingled among the broken hearthstones. The streets are littered with books, picture postcards, family portraits, religious pictures and all manner of home furnishings, all are slightly trodden and the town scores of torn feather beds. It was this way, too, in Vaux.

In Fivizzano I took inventory of the contents of one square yard of debris in the main street. I found a pair of corsets, a rosary, several post cards, a woman's torn hat, a school book, a stove handle and a number of broken bricks.

New Shock Brings Terror.
The entire length of the main street is piled ten feet high with wreckage from the church, postoffice, cinema theater, shops and dwellings. Further down the mountainside, however, the isolated houses, suffered only cracked walls or broken chimneys.

At Colle Mandina, in the ruins near the campanile which dates back to the twelfth century, at noon today I was watching the firemen tearing down the few upright walls when a sharp earthquake shock of about two seconds duration brought a new panic. One fireman was thrown from a shaking wall to the road, and his companions fled in terror from the shadow of the lofty tower whose walls were cracked from top to bottom. But the campanile still stands.

The homeless peasants are loath to leave the regions of their blasted homes, some through sentiment, but for the most part because the grape harvest is nearly due and the consequent income will partially restore their wrecked fortunes.

So they are sticking to their United States "pup tent" in the vineyards and trust to other people's kindness to bring them food and water from the valleys.

The children, thousands of them, have recovered quickly from their original fright. They are too young to understand that the campfires are obligatory and not merely a new adventure, and they fill the hills and valleys with happy laughter which almost completely drowns their mothers' sobs.

Does She Jerk Because or on Purpose?

"THE TRUTH."

Produced by Goldwyn.
Directed by Lawrence C. Windon.
Presented at the Castle.

THE CAST.
Becky Warder.....Madge Kennedy
Tom Wicker.....Tom Carver
Eve London.....Helen Green
Fred London.....Kenneth Hill
Becky's Father.....Frank Boone
Mrs. Carver.....Zella Sears

By Mae Tineo.

Despite the fact that Madge Kennedy acts like a jointed automaton from start to finish, "The Truth" is a fair entertainment. It is a comedy drama of married life, and is from the play by Clyde Fitch.

Returning to the subject of Miss Kennedy—why does she do it? We have met the little lady and she is a creature of charm, personality and good sense. In real life, she doesn't act like she was controlled by strings. Why on earth does she make herself a puppet for the screen?

Her work in "The Truth" might be briefly described as a series of jerks controlled apparently by a hidden mechanism slightly out of order. Not once does she give evidence that she has a brain that thinks. Not once!

Her role is that of a young married woman whose only sin is a taste for lying. She lies instinctively, but not artistically. She lies not for cause, but for effect. She lies when the truth fairly shrieks to be told as the obvious and graceful way out of an embarrassing situation. It develops that her lying is hereditary.

Her one vice almost works her down. Not quite, however. She is beautifully cured by the time events work round to the final fadout.

Because Miss Kennedy is pretty and likeable in spite of her atrocious acting, she doesn't spoil the picture, which is well done otherwise. But—
If the young lady would keep off the shelf
Our advice she'd better get up to herself.
(She isn't every star that gets knocked in perfect rhythm.)

SILAGE AS FEED.

REPORTS of the state live stock survey now being made by the Illinois Agricultural association indicate fewer cattle are being fed this season than last year. This condition is the outgrowth of the feed situation. Some cattlemen have closed their feed lots, while others are trying to find a feeding ration that will produce beef more economically. Silage used as part of the beef steer's ration will help greatly. Dairymen no longer doubt the value of silage as a feed for their herds. Now tests at experiment stations in the corn belt have proved the value of the silo for feeding cattle for beef.

The Iowa station found a large corn silage ration showed \$23.11 profit per steer, and a small ration \$15.37 per steer. On the average Iowa farm with an average corn crop put in a silo, it is claimed the farmer can realize \$120 an acre from his corn crop fed as silage to his cattle.

Missouri made an eighty-five day test, and a large silage ration showed a gain of 100 pounds at \$10.59, and a small silage ration a gain of \$15.95. Kansas tried it and found a 100 pound gain where silage was not used cost \$21.48. With silage the cost was cut to \$12.31. Wisconsin tests that ran for 120 days showed a profit of \$25.33 on each steer fed the large ration of silage, and \$19.36 on each given a small ration of silage.

EMBARRASSING MOMENTS
The Tribune will pay \$1 for every letter published on "The Most Embarrassing Moment of My Life." Address: Embarrassing Moments, Chicago Tribune. Write on one side of the paper. No manuscript returned.

Made Signally Conspicuous.
I took my mother and small sister to a motion picture theater. As it was impossible to find seats together, I left them, and found a seat near the center of the performance. About the middle of the performance I heard some one calling me. It was sister. She had succeeded in escaping from mother, and was looking for me. Not being successful, she walked up near the orchestra, and began to call me, and did not stop until I got up and went to her. Every one was smiling broadly as I escorted her up the aisle. We didn't see the rest of the picture.

RESTORING PLACES
The first restaurant is said to have been established in Paris about 1765.
A cook named Boulanger was the proprietor; and he used this device to herald his purpose:
"Come all ye that labor with the stomach, and I will restore you."
The one word, CHILDS, conveys the same meaning today, for the CHILDS restaurants are literally restoring places.

Nothing like a cup of CHILDS morning coffee and invigorating coffee to restore the weary brain or body.

A FRIEND IN NEED

BY SALLY JOY BROWN.

I want to be the medium through which the friend in need may be helped. It may be you who are in need of help, or it may be some one else. Write to me at once and I will try to help you. Write on one side of the paper. No manuscript returned.

An Urgent Case.
I am a young mother 20 years of age who has a baby boy 15 months of age who is badly in need of clothing. My husband deserted me four months ago. I am going to give birth to another baby in October and I haven't a thing ready. My baby needs shoes. He is worn out and therefore is unable to walk. I am working in a factory. I would appreciate any discarded clothing for my baby. He wears a size of four infant's shoe. I am also in need of a buggy. D. T.

EXQUISITE FLAVOR

So Characteristic of

"SALADA"

ORANGE PEKOE

Makes it the one perfect tea.
It has that full bodied richness which satisfies all tastes.

Be Suspicious of Tender Gums

Be suspicious of any tenderness or bleeding of the gums. This is usually the first stage of Pyorrhea—an insidious disease of the gums that destroys the teeth and undermines bodily health.

Gradually the gums become spongy. They inflame, then shrink, thus exposing the unenameled tooth-base to the ravages of decay. Tiny openings in the gums form gateways for disease germs to enter the system.

Medical science has traced many ills to these infections in the gums weakened by Pyorrhea.

They are now known to be a frequent cause of indigestion, anaemia, rheumatism and other serious conditions.

So watch carefully for that first tenderness or bleeding of the gums. Try Forhan's immediately. It positively prevents Pyorrhea (Riggs' Disease) if used in time and used consistently.

And in preventing Pyorrhea—it guards against other ills.

Forhan's (For the Gums) cleans teeth scientifically as well. Brush your teeth with it. It keeps them white and clean.

If gum shrinkage has already set in, start using Forhan's and consult a dentist immediately for special treatment. 35c and 60c tubes. All druggists.

100 MILLION TAX PAYMENT FOLLOWS TO CAUSE RIPLE

The payment of the third quarter of \$300,000 of the federal income tax by the National Petroleum Company, Limited, has been reported by the company as the cause of a ripple in the market for common shares of the company.

The company, which is a subsidiary of the National Petroleum Company, Limited, has been reported to have paid the tax on its income for the third quarter of the year.

The payment of the tax, which was made on September 15, 1933, was reported to have caused a ripple in the market for common shares of the company.

The ripple in the market was caused by the fact that the company had paid the tax on its income for the third quarter of the year, which was a record for the company.

The ripple in the market was caused by the fact that the company had paid the tax on its income for the third quarter of the year, which was a record for the company.

Shareholders Must Follow Procedure

The shareholders of the National Petroleum Company, Limited, must follow the procedure for the payment of the tax on their income for the third quarter of the year.

The procedure for the payment of the tax on their income for the third quarter of the year is as follows:

1. The shareholders must first determine the amount of the tax on their income for the third quarter of the year.
2. The shareholders must then determine the date by which the tax must be paid.
3. The shareholders must then determine the method by which the tax must be paid.

Can't Answer Below you have of our Tax Training

The National Petroleum Company, Limited, has a tax training program for its shareholders. The program is designed to help shareholders understand the tax laws and how to apply them to their own situation.

The tax training program is available to all shareholders of the National Petroleum Company, Limited. The program is designed to help shareholders understand the tax laws and how to apply them to their own situation.

have been withdrawn from the market for houses so far this year. The total amount of 1,000 gallons. Mr. Kramer says that the withdrawals are about the amount necessary for other legitimate purposes to be put on the lid.

By the simple expedient of putting the tax to renew permits to withdraw water from dealers, Mr. Kramer intends to make the withdrawal enormously the heavy water.

Many Wholesalers

All existing permits to withdraw water for Oct. 1, and Mr. Kramer expects to say that the

will not be renewed by the government. Renewals cannot be made without showing cause. There is a wholesaler who has been under suspicion, even though not been proved, he will not be renewed.

Large quantities of liquor have been illegally withdrawn from warehouses, he explained. The government has appropriated money for guarding these storages but it is inadequate.
